This Product Highlights Sheet is an important document.

It highlights the key terms and risks of the Investment-Linked Policy sub-fund (ILP sub-fund) and complements the Product Summary.

It is important to read the Product Summary before deciding whether to purchase the ILP sub-fund. If you do not have a copy, please contact us to ask for one.

You should not invest in the ILP sub-fund if you do not understand it or are not comfortable with the accompanying risks.

MI BLACKROCK GLOBAL FUNDS EMERGING EUROPE (SP)

ILP SUB-FUND SUITABILITY

WHO IS THE ILP SUB-FUND SUITABLE FOR? The ILP sub-fund is only suitable for investors who: • Seek to maximise total return • are informed investors willing to adopt capital and income risk; and • understand that their capital will be at risk and that the value of their investment and any derived income may fall as well as rise.	Further Information Further information on the suitability of this ILP subfund can be found in the 'ILP sub-fund Suitability' section of the relevant ILP Sub-fund Factsheet which is available on our website at www.monument.im

KEY FEATURES OF THE ILP SUB-FUND

WHAT ARE YOU INVESTING IN? • You are investing in an ILP sub-fund that invests 100% into the underlying fund. The underlying fund is a sub-fund of BlackRock Global Funds (BGF). BGF is a SICAV incorporated in Luxembourg as an open-ended investment company and its home regulator is the Commission de Surveillance du Secteur Financier (CSSF). • As the ILP sub-fund invests 100% into the underlying fund, pertinent information relating to the underlying fund (e.g. objective, investment strategy, key risks) will be applicable to the ILP sub-fund too. • The underlying fund's investment objective seeks to maximise total return.	Refer to the Company Details section and information on the relevant underlying fund in the "Sub-Fund Information" section in the relevant underlying fund prospectus for further information.

[1] In order for units in the ILP sub-fund to be classified as Excluded Investment Products, the investment objectives and investment focus of the ILP sub-fund, and investment approach of the manager have to be stated in the product summary:
(a) To invest only in deposits or other Excluded Investment Products; and
(b) Not to engage in securities lending or repurchase transactions for the ILP sub-fund.
The definition of "Excluded Investment Product" can be found in Annex 1 to the Notice on Recommendations on

PRODUCT HIGHLIGHTS SHEET

Investment Strategy

- The original strategy of the underlying fund (the "Fund") was to invest at least 70% of its total assets in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, emerging European countries. It could also invest in companies domiciled in and around, or exercising the predominant part of their economic activity in and around, the Mediterranean region.
- The Fund could use derivatives for investment purposes and for the purposes of efficient portfolio management.
- **Due to the escalating conflict between Russia and the Ukraine, the Fund elected to separate illiquid assets with exposure to Russia and/or Ukraine from the liquid assets. Monument has made the decision launch this ILP sub-fund to accommodate the illiquid investments. Dealing this ILP sub-fund is suspended and it will close once these assets are liquidated. There is no indication of when this will be at this time.**

Refer to the 'Manager's investment approach' section of the relevant ILP Sub-fund Factsheet.

Parties involved

WHO ARE YOU INVESTING WITH?
You are gaining exposure to an underlying fund through an investment-linked life insurance plan. This policy is underwritten by Monument International Life Assurance Company Limited (Monument International) which is part of the Monument Re Group. Through this plan you are gaining exposure to the underlying fund's:

- **Umbrella fund company - BlackRock Global Funds**
- **Management Company - BlackRock (Luxembourg) S.A.**
- **Investment Adviser/Sub-Investment Adviser - The Management Company has delegated its investment management function of the Fund to one or more investment advisers within the BlackRock Group (as listed in paragraph 3.2 of the underlying Fund Manager's Singapore Prospectus).**
- **Depositary - The Bank of New York Mellon SA/NV, Luxembourg Branch.**
- **The Singapore Representative is BlackRock (Singapore) Limited.**

Refer to the relevant 'Product summary' and Company Details section in the relevant underlying fund prospectus for further information.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?
The full risks of this ILP sub-fund can be found in the prospectus for the underlying fund but some important risks have been listed below. These risk factors (along with others not listed here) may cause you to lose some or all of your investment. You should be comfortable with all the risk factors before investing in this ILP sub-fund.
Please refer to the relevant product summary for information on expenses and market movement risks you may be exposed to should you cancel your policy within the cooling-off period (if applicable).
You need to be aware that any investor protection or compensation schemes that may exist in relation to investing in the underlying fund may not apply in full in the event of failure of the underlying fund, its custodian or management company for investors investing in the underlying fund via an ILP sub-fund. Although Monument may seek recourse for investors in ILP sub-funds in the event of any such failure, any compensation received is not guaranteed and may be less than had the investor been directly invested in the underlying fund.

Refer to the Risks section of the relevant 'Product summary' and the 'Risks associated with investment in this ILP sub-fund' section of the ILP Sub-fund Factsheet for further information on risks.

Market and credit risks

- **Currency Risks**

  Foreign currency exchange rate movements are likely to influence the returns to investors in Singapore, hence investors may be exposed to exchange rate risks. For Hedged Share Classes, while the Fund attempts to hedge currency risks, there can be no guarantee that it will be successful in doing so.

- **Emerging Market Risks**

  The Fund may invest in one or more emerging markets (including emerging European/Mediterranean countries) and may be subject to a higher than average volatility than investing in more developed markets due to greater political, tax, economic, social, foreign exchange, custodial, liquidity, regulatory or other risks.

- **Foreign Investment Restrictions Risks**

  Some countries prohibit or restrict investment, or the repatriation of income, capital or the proceeds from sale of securities. The Fund may incur higher costs investing in these countries. Such restrictions may delay the investment or repatriation of capital of the Fund.

• **Equity Risks** **The values of equities fluctuate daily and can be influenced by many factors including issuer-specific factors and broader economic and political developments.**	
Liquidity risks	
• **Liquidity Risks** **Redemptions may be suspended in certain circumstances and you will only be able to redeem the units in the underlying fund on a dealing day.**	
Product-specific risks	
• **Derivatives Risks** **The use of derivatives may expose the Fund to a higher degree of risk. Derivative contracts can be highly volatile and a relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can hence increase the Fund's volatility. The Fund may sustain loss as a result of the failure of a derivatives counterparty to comply with the terms of the derivatives contract.** • **Securities Lending Risks** **The Fund may engage in securities lending. As such, the Fund will have a credit risk exposure to the counterparties to any securities lending contract. The Fund's investments can be lent to counterparties over a period of time. A default by the counterparty combined with a fall in the value of the collateral below that of the value of the securities lent may result in a reduction in the value of the Fund.** • **Smaller Capitalisation Companies Risks** **The Fund may invest in small cap companies. Such investments may have higher than average volatility and liquidity risks.**	

FEES AND CHARGES	
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? **<u>Payable directly by you</u>** **You will need to pay the following fees and charges as a percentage of your gross investment sum:**	**This section highlights charges relating to this ILP sub-fund. For further information refer to the "Charges and Expenses" and "Sub-Fund Information" sections in the relevant underlying fund prospectus. For full charges of the insurance product you are invested in please refer to fees and charges section of the relevant 'Product summary' which will be made available to you.**

Switching charge	Currently 0.00%
Currency switch charge	0.00% (When switching between funds of different currencies)

<u>Payable by the sub-fund from invested proceeds</u>
The ILP sub-fund will pay the following fees and charges to the manager and other parties.

Management fee	1.75% p.a.
Depositary Fee	The annual custody safekeeping fees range from 0.0024% to 0.45% p.a. and the transaction fees range from USD5.50 to USD124 per transaction.
Securities Lending Fees (payable to securities lending agent)	The securities lending agent, BlackRock Advisors (UK) Limited, receives remuneration up to 37.5% of the net revenue from securities lending, with all operational costs borne out of BlackRock's share.
Annual Administration Fee	0.25% p.a. (Maximum)
Monument Annual Management Charge	0.75% p.a.

VALUATIONS AND EXITING FROM THIS INVESTMENT	
How often are valuations available? **The ILP sub-fund values daily on every business day in the country where the underlying fund is domiciled and in the Isle of Man. Prices are published on www.monument.im** **How can you exit from this investment and what are the risks and costs in doing so?** **You can exit the ILP sub-fund at any time by contacting us and submitting your written trading instruction before 2.00 pm (IOM/UK time) on each business day in the Isle of Man. Instructions received after 2.00 pm will be put forward for the next available dealing day. Monument does not levy any additional charges for redeeming from this ILP sub-fund.** **Your redemption proceeds will be calculated by multiplying your unit holding by the redemption price applicable to your deal. On the redemption of units we will pay the proceeds to you within 4 business days.** **You may change your mind and decide to cancel the investment within 30 days of issue of the policy (the cooling-off period).** **The sale proceeds that you will receive will be the exit price multiplied by the number of units sold, less any charges. An example, assuming no charges are applicable, is as follows:** **Exit price X number of units sold = gross sale proceeds** **SGD1.250 X 1,000 = SGD1,250** **Gross sale proceeds - realisation charge = net sale proceeds** **SGD1,250 - SGD0.00 = SGD1,250**	**Refer to the Redemption of units section of the relevant 'Product summary' for further information on exiting from the ILP sub-fund. Prices can be found on www.monument.im**

APPENDIX: GLOSSARY OF TERMS	
Net Asset Value (NAV)	The NAV of a company is its total assets minus its total liabilities.
Société d'investissement à capital variable (SICAV)	A type of open-ended investment fund in which the amount of capital in the fund varies according to the number of investors. Shares in the fund are bought and sold based on the fund's current net asset value. SICAV funds are some of the most common investment vehicles in Europe.
Undertakings for Collective Investment in Transferable Securities (UCITS)	A public limited company that coordinates the distribution and management of unit trusts amongst countries within the European Union. These funds can be marketed within all countries that are a part of the European Union, provided that the fund and fund managers are registered within the domestic country. The regulation recognises that each country within the European Union may differ on their specific disclosure requirements.
Efficient Portfolio Management	Generally means investment decisions involving transactions which are (i) economically appropriate and (ii) entered into for the reduction of risk, reduction of cost and /or the generation of additional capital or income.
Derivatives	A derivative is a security whose price is dependent upon or derived from one or more underlying assets. The derivative itself is merely a contract between two or more parties. Its value is determined by fluctuations in the underlying asset. The most common underlying assets include stocks, bonds, commodities, currencies, interest rates and market indexes. Futures contracts, forward contracts, options and swaps are the most common types of derivatives. Derivatives are generally used as an instrument to hedge risk, but can also be used for speculative purposes.
Product Summary	The Product Summary is comprised of a document entitled Product Summary which contains information at the product level, and the ILP sub-fund Factsheet which contains information at the ILP sub-fund level.
Share Class	The Management Company of an underlying fund will often create different classes to meet specific needs and/or circumstances of an investor. Primary classes are those detailed below: Retail – A class aimed at individual investors. Institutional – A class designed for larger institutional investments, typically with high minimum investment levels but lower overall charges. Accumulation – The Management Company will automatically invest any dividend or income distribution into the underlying fund, resulting in an increase in the share class's value and potential increase in fund price. Income – The Management Company will distribute any income from the underlying fund either as a cash payment or additional units in the fund. Net/Gross – Indicates the treatment of taxation on income distributions made from the relevant underlying fund.
Collective Investment Schemes (CIS)	A type of investment where investors monies are combined to give them access to a wider range of investments than would be feasible as an individual investor.
Realisation Charge	A charge taken upon encashment of some or all of the Investment Linked Policy. The charge may vary depending on, amongst other things, the time remaining until the policy maturity date.
