ISIN: GB00BZ7MQD81

has appointed Example Asset Manager Mortgage Investment Trust PLC as its manager and secretary. They can be contacted at www.assetmortgage.com or on 0800 000 0000. Example Asset Manager Mortgage Investment Trust PLC is authorised and regulated by the Financial Conduct Authority.

Date of Production 24 October 2022

You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

The information contained in this document and the methodologies for calculating risks, costs and potential returns are prescribed by law. The Product is an ordinary share in a closed-ended investment trust, a company whose shares are listed on the London Stock Exchange. The Trust is an actively managed, low cost investment trust that invests in a reasonably well diversified portfolio of assets. It aims to maximise total return over the long-term from investment primarily in shares of companies from across the globe. The Managers look for strong, well run businesses which offer the best potential durable growth opportunities for the future and aim to achieve a greater return than the FTSE All-World Index (in sterling terms) over a 5 year rolling period, although the Trust's portfolio is constructed without any reference to the index and will not replicate it. The majority of the portfolio will be held in quoted equities and up to a maximum of 30% of the assets may be invested in companies not listed on a public market (measured at the time of purchase). It can borrow money to invest with the intention of increasing returns (sometimes known as gearing) but in a falling market losses may thus be magnified.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

1	2	3	**4**	5	6	7

Lower risk ← → **Higher risk**

! The risk indicator assumes you keep the product for a minimum of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back. In accordance with legislation, we have classified this product as 4, which is a medium risk class. Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases. The summary risk indicator only reflects historical share price volatility of the Company's shares. Gearing, exposure to emerging markets, unlisted investments, foreign currencies, derivatives and the ability of the Trust to buy back its own shares may increase risk. This product does not include any protection from future market performance so you could lose some or all of your investment.

What are the risks and what could I get in return? (continued)

This table shows the money you could get back over the next 20 years.under different scenarios, assuming that you invest EUR1,000 per year.The scenarios shown are illustrations using the worst, average, and best performance of the product

Recommended holding period:		**20 years**
Example Investment:		**0 GBX per year**
		If you exit after 20 years
Scenarios		
Minimum	There is no minimum guaranteed return if you exit before 20 years. You could lose some or all of your investment.	
Stress	What you might get back after costs	0 GBX
	Average return each year	10.12%
Unfavourable	What you might get back after costs	0 GBX
	Average return each year	10.12%
Moderate	What you might get back after costs	0 GBX
	Average return each year	10.12%
Favourable	What you might get back after costs	0 GBX
	Average return each year	10.12%
Amount invested over time		0 GBX
Death Scenario		
Insured event	What your beneficiaries might get back after costs	0 GBX
Insurance premium taken over time		0 GBX

This type of scenario occurred for an investment between 2018-2022.

What happens if Maitland is unable to pay out?

As the shares are not traded directly with the Trust or Example Asset Manager Mortgage Investment Trust PLC but are traded on the London Stock Exchange, any default by Example Asset Manager Mortgage Investment Trust PLC will not materially affect the value of your shares.

What are the costs?

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: - In the first year you would get back the amount that you invested (5% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario. - EUR 1000 per year is invested.

	If you exit after 20 years
Total costs	GBX 0
Annual cost impact (*)	10.1% each year

(*) "This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.1 % before costs and 10.1 % after costs."

This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

What are the costs? (continued)

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and, what the different cost categories mean.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when entering your investment.	Up to GBX 0
Exit costs	The impact of the costs of exiting your investment when it matures.	GBX 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investments.	GBX 0
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	GBX 0
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	GBX 0

We may share part of the costs with the person selling you the product to cover the services they provide to you. These figures include the maximum distribution fee that the person selling you the product may charge.

How long should I hold it and can I take money out early?

Recommended holding period:5 yearsThe recommended holding period of 5 years has been selected for illustrative purposes only. Equity investments should be seen as long-term investments however there is no minimum (or maximum) holding period for the shares. The shares can be sold when the markets on which they trade are open, in this instance the London Stock Exchange. At any time the value of your investment is based on the market value of the shares (the share price) multiplied by the number of shares you own.

How can I complain?

If you have a complaint about the product or the person advising on or selling the product you will need to provide the details to the person who advised you or sold you the product. As a shareholder of Example Asset Manager Mortgage Investment Trust PLC you do not have the right to complain to the Financial Ombudsman Service (FOS) about the management of Example Asset Manager Mortgage Investment Trust PLC.
