You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: The PRIIP is an accumulating share class of the Fund, denominated in EUR. The Fund is a sub-fund of the ICAV, an open-ended umbrella type Irish collective asset-management vehicle with segregated liability between sub-funds authorised by the Central Bank as a UCITS.
Term: The Fund is not subject to a fixed term and has no maturity date. The Manager is not entitled to terminate the product unilaterally but it may be terminated in certain circumstances as described in the prospectus of the ICAV (the "**Prospectus**"). The Fund is a daily dealing fund and investors may redeem units on demand on any dealing day, as set out in the supplement for the Fund (the "**Supplement**") and subject to the minimum transaction size set out therein and pursuant to the approach set out in the Prospectus.
Objectives: The investment objective of the Fund is to achieve high levels of capital growth over the medium to long term. The Fund seeks to achieve this by investing up to 100% of its net asset value ("NAV") in units of other CIS with a globally diverse portfolio primarily of equities and equity-related securities. The CIS into which the Fund may invest will be UCITS or AIFs and may include exchange-traded funds, mutual funds, hedge funds and money market funds.
The Fund may directly invest up to 100% of its NAV in equities and equity-related securities (including, common shares, preferred shares, convertible stock, depositary receipts, rights issues, equity warrants which will not embed derivatives (held as a result of a corporate action only) and shares in real estate investment trusts). The Fund's direct exposure to REITs shall not exceed 30% of the Fund's NAV and to ETCs shall not exceed 10% of its NAV.
The Fund may directly invest up to 30% of its NAV in debt securities, which will be exchange-traded commodities and bonds. The bonds may be fixed and/or floating rate, investment grade and sub-investment grade including high yield securities and unrated securities, issued by corporate, governmental or supranational issuers worldwide.
The Fund may invest up to 30% of its NAV in money market instruments, cash and near-cash instruments, which may comprise of treasury bills (T-bills), cash deposits and money market funds, which may be acquired for ancillary liquid asset purposes.
The Fund's investment manager will invest directly in equities or debt securities where it is of the view that it is more efficient to do so, where it believes it allows for greater risk spreading or where it believes such investment will allow for greater diversification.
The Fund's investment manager has a robust due diligence process for the selection / ongoing monitoring of underlying CIS, which includes quantitative analysis, qualitative - portfolio analysis, external research, sub-committees of the Investment Manager, meetings - companies and funds and ongoing monitoring.
The Fund does not intend to concentrate on any particular industries, sector or region and may invest in developed, emerging or frontier markets. It will not invest more than 50% of its NAV directly in emerging markets and more than 20% of its NAV in frontier markets.
The Fund is actively managed and allows for discretionary choices in regards to the investments that are made, without any reference to a benchmark. The return of the Fund is determined by the performance of its underlying assets, less costs.
Distribution: Accumulating shares do not pay dividends. The annual result is capitalized (or reinvested). Distribution shares pay a dividend, insofar as the performance of the Fund allows.
Intended Retail Investor: The Fund is suitable for retail and institutional clients with a high tolerance for volatility and a medium to long investment horizon (5 to 10 years) and the ability to bear losses up to the amount invested in the Fund.
Depositary: CACEIS Investor Services Bank S.A., Dublin Branch (the "**Depositary**").
Further Information: You can obtain copies, free of charge, of the Prospectus, the Supplement and the latest annual and semi-annual report and accounts for the ICAV along with latest prices of shares and other practical information from CACEIS Investor Services Bank S.A., Dublin Branch, George's Quay House, 43 Townsend Street, Dublin 2, Ireland. These are in English.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

1	2	3	**4**	5	6	7

Lower risk — Higher risk

The risk indicator assumes you keep the product for a minimum of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this Portfolio as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Fund 's capacity to pay you.

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.6% before costs and 4.3% after costs.

What happens if LGT Wealth Management is unable to pay out?

You will not face a financial loss due to the default of the Manufacturer. The assets of the Fund are held in safekeeping by the Depositary. In the event of the insolvency of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary). Investors in the Fund are not covered by any guarantee or compensation scheme and could, in the worst case, lose their entire investment.

What are the costs?

The person advising on or selling you the Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you invest in the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:
• In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
• EUR 10000 per year is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 134	EUR 770
Annual cost impact (*)	1.3%	1.3% each year

We may share part of the costs with the person selling you the product to cover the services they provide to you. These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.
