## What is this product?

### Type

This product is a UCITS Fund.

### Term:

The Fund, unless dissolved pursuant to any specific cause set forth in a mandatory law or in accordance with the prospectus of the Fund, is established for an unlimited duration.

### Objectives:

The objective of the Nuveen Emerging Markets Impact Bond Fund is to seek favourable long-term risk- adjusted return, through income and capital appreciation, by investing primarily in a portfolio of emerging markets fixed-income securities. The Fund directs capital towards issuers that demonstrate environmental, social and governance leadership and are best positioned to address social and/or climate challenges, or securities that meet Nuveen's proprietary fixed income direct and measurable Impact Framework.
The Impact Framework is proprietary to the sub investment manager and seeks opportunities to invest in publicly traded fixed-income securities that finance initiatives in areas including affordable housing, community and economic development, renewable energy and climate change, and natural resources.

The Fund normally invests its assets in sovereign and corporate bonds of issuers that are located or listed in, or otherwise have substantial exposure to, emerging markets. The Fund may invest without limit in bonds with a credit rating lower than investment grade.
The Fund's investments are determined based upon the sub investment manager's belief that the Fund can take advantage of what appear to be undervalued, overlooked or misunderstood issuers that may increase the Fund's profits. The Fund's investments in fixed-income securities issued by corporate entities or governments are subject to the Impact Framework or ESG criteria which establish whether the securities of a particular issuer are eligible for inclusion in the Fund.
The Fund expects to invest a maximum of 10% of its Net Asset Value in securities denominated in currencies other than US dollars.

The Fund is classified as a financial product with a sustainable investment objective as described in Article 9 of SFDR.
The Fund is actively managed and uses the JP Morgan EMBI Global Diversified Index (the "Benchmark") for performance comparison purposes. While a proportion of the Fund's assets may from time to time be components of and have similar weightings to the Benchmark, the Sub Investment Manager has discretion in the selection of investments for the Fund and may invest in securities that are not included in the Benchmark.
In addition, the Benchmark employs different investment guidelines and criteria than the Fund. As a result, the holdings in the Fund may differ significantly from the assets that comprise the Benchmark and the volatility of the Benchmark presented may be materially different from that of the performance of the Fund.

The Fund may invest in financial derivative instruments ("FDI"), which are financial instruments linked to the value of underlying assets. FDI may be used for, e.g., managing the Fund's exposure to foreign currencies, reducing risk, managing the Fund more efficiently and to achieve profit. At times, the Fund may invest in cash and instruments that can be readily converted into cash.
Any income the Fund generates will be reinvested to grow the value of your investment.
You may purchase or sell shares of the Fund on days on which both the New York Stock Exchange and retail banks in Ireland are open for business, subject to certain cut-off times.
This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This document describes a sub-fund of the Company. The prospectus and periodic reports are prepared in respect of the entire umbrella Company. The assets and liabilities of each sub-fund of the Company are segregated by law, and so the assets and liabilities of one sub-fund cannot be used to discharge the liabilities of another sub-fund. Each investor of the Fund may apply to exchange shares in the Fund for shares in another sub-fund of the Company as set out in the Prospectus.
We are required to provide you with further documentation, such as the Fund's latest prospectus, past performance and annual and semi-annual reports. These documents and other product information are available online at www.nuveen.com/ucits.
The assets of the Fund are held in safekeeping by its depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited (the “Depositary”).

### Intended Retail Investor:

The Fund may be appropriate for investors who have a long-term investment horizon. The Fund is not designed for investors who are unwilling to accept volatility, including the possibility of sharp share price fluctuations (including declines) or investors who are seeking to invest to meet short-term goals.

## What are the risks and what could I get in return?

### Risk indicator

| Lower risk | | | | | | Higher risk |
|---|---|---|---|---|---|---|
| 1 | 2 | **3** | 4 | 5 | 6 | 7 |

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level and poor market conditions are unlikely to impact the value of your investment. Be aware of currency risk.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

For other risks materially relevant to the product which are not taken into account in the summary risk indicator or other information, please read the product's Annual Report or Prospectus available at www.nuveen.com/ucits.
This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Nuveen Emerging Markets Impact Bond Fund over the last 10 years.

| Recommended holding period: | | | 5 years |
|---|---|---|---|
| **Example Investment:** | | | **10,000 EUR** |
| **Scenarios** | | **If you exit after 1 year** | **If you exit after 5 years** |
| **Minimum** | There is no minimum guaranteed return if you exit before 5 years | | |
| **Stress** | **What you might get back after costs**<br>Average return each year | | |
| **Unfavourable** | **What you might get back after costs**<br>Average return each year | | |
| **Moderate** | **What you might get back after costs**<br>Average return each year | | |
| **Favourable** | **What you might get back after costs**<br>Average return each year | | |

The stress scenario shows what you might get back in extreme market circumstances and it does not take into account a situation where we are not able to pay you. This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

## What happens if Nuveen Fund Advisors, LLC is unable to pay out?

You may face a financial loss should the manufacturer or depositary, default on their obligations to the Fund. However, this risk is mitigated to a certain extent by the fact that the depositary is required to segregate its own assets from the assets of the Fund. Therefore, in the event of insolvency of the manufacturer or the depository, the Fund's assets are segregated from the assets of the manufacturer and the depository and will not be subject to a claim by the liquidator of the manufacturer or the depository.
There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

10 000,00 EUR is invested.

| | If you exit after 1 year | If you exit after 5 years |
|---|---|---|
| Total costs | | |
| Annual cost impact (*) | | |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be % before costs and % after costs.

**Composition of Costs**

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|---|
| Entry costs | We do not charge an entry fee. | |
| Exit costs | | |
| **Ongoing costs taken each year** | | |
| Management fees and other administrative or operating costs | | |
| Transaction costs | | |
| **Incidental costs taken under specific conditions** | | |
| Performance fees | This product does not have any performance fees or carried interests. | |

## How long should I hold it and can I take money out early?

**Recommended holding period: 5 years**

This product has no required minimum holding period but is designed for long term investment; you should be prepared to stay invested for at least 5 years. You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).
