a sub-fund of **Cazenove Capital Private Asset Series**

Class A Accumulation USD (TBD000081012)

This product is managed by Schroder & Co. Limited, a member of the Schroders Group. The Financial Conduct Authority (FCA) is responsible for regulating Schroder & Co. Limited in relation to this Key Information Document. Schroder & Co. Limited is authorised in the United Kingdom and regulated by the FCA.

This document was published on 04/12/2023.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

The fund is a self-managed closed-ended collective investment scheme. It is registered with the Guernsey Financial Services Commission, and with the Financial Conduct Authority for distribution in the UK.

Term

There is no maturity date of the fund.

Investment objective

The investment objective of the Company is to realise attractive long-term risk-adjusted returns with a focus primarily on income returns.

The fund will seek to achieve its investment objective (without limitation) through investment into pooled collective investment vehicles (such as funds), and from time to time in single investments which focuses on (without limitation) secondaries, co-investments and growth/buyout.

The fund aims to provide shareholders with a degree of diversification and access to a portfolio of income streams that they could not otherwise access themselves, either because of high minimum investment requirements or because they are effectively closed to new investors.

Recommendation: It is recommended that investors seek independent advice or satisfy themselves that they understand the strategies and techniques employed by the fund and the master fund before investment. The fund is valued with reference to the net asset value of the underlying assets of the master fund.

Benchmark: The fund does not have a benchmark. The fund's performance should be assessed against its investment objective, being to provide a positive return over the medium to long term. The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of a benchmark. The fund is not expected to replicate the performance of any benchmark.

Dealing Frequency: There is no secondary market dealing available.

Depositary: Northern Trust International Fund Administration Services (Guernsey) Limited

Intended retail investor

The fund is intended for sophisticated and high net worth retail and institutional investors who understand the structure of this product, and who are prepared to take on a high level of risk as well as a high level of illiquidity in order to receive a higher potential return. Investors must be able to bear losses up to the amount committed to the fund and must be prepared to hold the investment for a significant length of time.

What are the risks and what could I get in return?

Risks

1 2 **3** 4 5 6 7

Lower risk — Higher risk

The risk indicator assumes you keep the product for up to 12 years.
You cannot cash in early.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

The fund is in this category because it seeks to provide rewards whilst limiting price volatility.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

Recommended holding period:		**12 years**		
Example Investment:		**USD 10000**		
		If you exit after 1 year	**If you exit after 6 years**	**If you exit after 12 years**
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	**What you might get back after costs**	**USD 8460**	**USD 7680**	**USD 7090**
	Average return each year	-15.4%	-4.3%	-2.8%
Unfavourable	**What you might get back after costs**	**USD 8460**	**USD 7680**	**USD 9640**
	Average return each year	-15.4%	-4.3%	-0.3%
Moderate	**What you might get back after costs**	**USD 10380**	**USD 10680**	**USD 12290**
	Average return each year	3.8%	1.1%	1.7%
Favourable	**What you might get back after costs**	**USD 13370**	**USD 18650**	**USD 16330**
	Average return each year	33.7%	11.0%	4.2%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The maximum loss you could incur would be the full value of your investment

The Unfavourable scenario was simulated based on the appropriate benchamrk used for an investment between 07 2022 to 10 2023

The Moderate scenario was simulated based on the appropriate benchmark used for an investment between 11 2010 to 11 2022

The Favourable scenario was simulated based on the appropriate benchmark used for an investment between 10 2006 to 10 2018

What happens if CC Private Assets Equity is unable to pay out?

If the fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds, but you may lose part or all of your investment. You are not covered by the UK or Guernsey compensation schemes.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10 000,00 is invested

	If you exit after 1 year	**If you exit after 6 years**	**If you exit after 12 years**
Total costs	**USD 272**	**USD 1867**	**USD 4672**
Annual cost impact (*)	**2.7%**	**2.8% each year**	**2.8% each year**

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4,5 % before costs and 1,7 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	USD 0
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	These costs are an estimate based on actual costs over the last year that we take each year for managing your investments. [1.35%]	USD 135
Transaction costs	There are no estimated costs applicable over the last year for buying and selling the underlying investments for the product.	USD 0
Incidental costs taken under specific conditions		
Performance fees	These costs are taken from your investment if the performance is positive and is subject to the high water mark principle. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. [1.30%]	USD 130

How long should I hold it and can I take money out early?

Any investment in this product should be viewed as a long-term investment. You will be unable to redeem during the life of the fund. Typically a recommended holding period is a minimum of 12 years.

How can I complain?

Should you wish to complain about the fund, please contact your Portfolio Manager or Advisor, or send your complaint in writing to CC Private Assets Equity, PO Box 334, Regency Court, Glategny Esplanade, St. Peter Port, Guernsey, GY1 3UF.

Other relevant information

Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary.

Umbrella Fund: The fund is a self-managed closed-ended collective investment scheme. It is registered with the Guernsey Financial Services Commission, and with the Financial Conduct Authority for distribution in the UK.

This Key Information Document is updated at least every 12 months, unless there are any ad-hoc changes.
