Aegon fund size*	£7.37m
Total charge per annum**	0.00%

*The fund size is the total sum of assets held within the fund. **This is the total charge deducted from your plan. We reserve the right to change it.

About fund performance

Investors should always consider performance in relation to the objective of the fund and over periods of at least five years. If a fund has risen in value, it doesn't mean it is meeting its objective – especially if the fund is aiming to outperform a particular benchmark or meet a risk target. The same applies if the fund has fallen in value.

Our risk rating

Fund objective

The fund aims to outperform the FTSE All Share Index by 2% per year (after charges) over rolling 5-year periods. It does so by investing at least 80% in the shares of UK companies of any size and in any sector. The fund will typically hold between 30 to 50 stocks. The Aegon fund has higher charges than the underlying Baillie Gifford fund and will therefore be less likely to meet this target.

Fund performance

The following graph and tables show the performance of the fund over various time periods compared to the fund's benchmark (if there is one). All performance information is as at 31 Jul 2023 unless otherwise stated.

In the graph, performance is shown since launch if the fund is less than five years old.
