

## Key Information Document

### Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

ISIN: IE000V96NPN8, has appointed LGT Wealth Management Jersey Limited as its manager. They can be contacted at [fund-investors-queries@lgt.com](mailto:fund-investors-queries@lgt.com) or on +44 1534 786400. LGT Wealth Management Jersey Limited is authorised and regulated by the Jersey Financial Services Commission.

Date of Production 05 September 2023

### What is this product?

#### What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

# REALOBJECTS PDFReactor®

## Evaluation Version

This PDF document was created by an evaluation version of RealObjects PDFReactor 11.6.5 (14980). The evaluation version is fully functional, but includes this information page. It must not be used for production purposes. The information page and all other evaluation notices must not be removed from the PDF file.

**NOTE:** Conversions in evaluation mode might be slower and the results might have a larger file size than in production mode.

## About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.

For more information visit [www.pdfreactor.com](http://www.pdfreactor.com)

## What are the risks and what could I get in return? (continued)

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest EUR10,000.

The scenarios shown are illustrations using the worst, average, and best performance.

The scenarios presented are an estimate of future performance based on evidence from the past and are not an exact indicator. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, where applicable, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

| Recommended holding period: |                                                                                                                  | 5 years                  |                           |

|                             | Average return each year                                                                                         | 22,23%                   | 4,46%                     |

This type of scenario occurred for an investment using the shareclass' NAVs and the benchmark as a proxy, between October 2016 - October 2021

This type of scenario occurred for an investment using the shareclass' NAVs and the benchmark as a proxy, between May 2017 - May 2022

This type of scenario occurred for an investment using the shareclass' NAVs and the benchmark as a proxy, between March 2015 - March 2020

## What happens if LGT Wealth Management is unable to pay out?

### What are the costs?

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10000 per year is invested

|                        | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs            | EUR 159                  | EUR 839                   |
| Annual cost impact (*) | 1.6%                     | 1.6% each year            |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.0% before costs and 1.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. These figures include the maximum distribution fee that the person selling you the product may charge.

## What are the costs? (continued)

This table shows the impact on return per year

| One-off costs upon entry or exit                            |                                                                                          | If you exit after 1 year |
|-------------------------------------------------------------|------------------------------------------------------------------------------------------|--------------------------|
| Entry costs                                                 | The impact of the costs you pay when entering your investment.                           | EUR 0                    |
| Exit costs                                                  | The impact of the costs of exiting your investment when it matures.                      | EUR 0                    |
| Ongoing costs taken each year                               |                                                                                          |                          |
| Management fees and other administrative or operating costs | The impact of the costs that we take each year for managing your investments.            | EUR 85                   |
| Transaction costs                                           | The impact of the costs of us buying and selling underlying investments for the product. | EUR 74                   |
| Incidental costs taken under specific conditions            |                                                                                          |                          |
| Performance fees                                            | The impact of the performance fee.                                                       |                          |

This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.
