The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising Vontobel Asset Management S.A. in relation to this Key Information Document. This Product and its management company Vontobel Asset Management S.A. are authorized in Luxembourg and supervised / regulated by the CSSF. Vontobel Asset Management S.A. is part of Vontobel Group.

This Key Information Document is accurate as at 16 November 2023.

What is this product?**Type**

The Fund was incorporated as a société anonyme, an open-ended fund formed under the amended law of 17 December 2010 on undertakings for collective investment. It is an umbrella fund with multiple compartments, the Sub-Fund being one of these compartments. The Shares are a class of shares in the Sub-Fund.

Objective

This actively managed Sub-Fund aims to achieve good investment returns in USD over a fixed period, by investing primarily in emerging market debt securities.

It may invest up to 100% of its net assets in interest-bearing securities in a broad range of rating categories, including up to 30% in high yield and up to 30% in unrated securities. Up to 25% may be invested in convertible bonds and warrants and 20% in asset-backed and mortgage-backed securities. It mainly invests in securities denominated in hard currencies issued or guaranteed by corporate or government, government-related and supra-national issuers domiciled in, having business activities in or exposed to emerging markets.

At least 90% of the securities in the Sub-Fund have the sustainability scoring, as described above. The Sub-Fund excludes 20% of the investment universe which consists of the emerging markets debt market. **Main methodological limits:** potential inconsistency, inaccuracy or lack of availability of ESG data issued by external third party providers. **More details on the above can be found in the prospectus.**

Up to one third of the Sub-Fund's assets may be invested in asset classes and financial instruments outside the aforementioned investment universe, in particular in fixed-income securities and money market instruments issued or guaranteed by corporate or government, government-related and supra-national issuers domiciled in, having their business activity in or exposed to developed markets, and in equities. It may also hold up to 20% of its net assets in bank deposits at sight. During the 3 months prior to Maturity, it may invest up to 100% in money market instruments, bank deposits and hold bank deposits at sight.

The Sub-Fund may use derivatives to achieve the investment objective and for hedging purposes. Currency, credit and interest rate risks may be actively managed through the use of derivative financial instruments.

There will be an initial subscription period prior to Sub-Fund's launch, starting on 12 April 2023 and ending on 20 June 2023. After this period, the Board of Directors may close the Sub-Fund for further subscriptions. The board of directors may also decide, at its discretion, not to launch the Sub-Fund if the subscriptions level is not sufficient to adequately deploy its investment strategy. It has a limited duration and will be terminated on 30 June 2026 (the "Maturity").

Redemption of Shares: daily when banks in Luxembourg are open for normal business (see prospectus for details and exceptions). This Sub-Fund may not be suitable for investors who want to withdraw their money before Maturity.

Income may be paid out every three months and is paid out of gross investment income. Charges are paid from invested capital which will either be eroded or future growth constrained.

The Sub-Fund is not managed with reference to a benchmark. The portfolio manager has full investment discretion within the predefined investment limits.

AQHN (hedged) Gross Shares are reserved for specific investors and do not grant any rebate or retrocessions. See prospectus for details.

Taking into consideration the minimum recommended holding period, the return will depend on the performance of the underlying investments.

The Fund's depositary is CACEIS Investor Services Bank S.A.

This Sub-Fund is part of an umbrella fund. The various Sub-Funds are not liable for one another, i.e. only the gains and losses of this Sub-Fund are relevant for you as an investor. You can request the conversion of some or all of your Shares in the Sub-Fund in accordance with the "Conversion of Shares" section of the prospectus.

The sales prospectus, including pre-contractual SFDR disclosure, up-to-date semi-annual and annual reports, share prices and other practical information are available free of charge at www.vontobel.com/AM in English and German.

Intended Retail Investor

The Sub-Fund is intended for retail investors with knowledge and/or experience of these types of products, who have obtained appropriate investment advice, who have short to medium-term investment horizon and have the ability to bear losses up to the amount they have invested in the Sub-Fund.

Term

The maturity date of the product is 30 June 2026. The Product Manufacturer can terminate the Shares unilaterally. The Shares, the Sub-Fund and the Fund can be terminated early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

What are the risks and what could I get in return?

The summary risk indicator (the "SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The Shares have a limited duration and are designed to be terminated on 30 June 2026.

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Performance Scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavorable, moderate, and favorable scenarios shown are illustrations using the worst, average, and best performance of the product, a suitable benchmark and/or a proxy over the last 10 years.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the SRI.

Other risks not captured in the SRI: liquidity, operational, legal or sustainability risks. Further details in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The Product offers no capital guarantee against credit risk.

Recommended holding period:

3 years

Example Investment:

GBP 10,000

		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 3 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	GBP 8,020	GBP 6,730
	Average return each year	-19.81%	-12.36%
Unfavourable	What you might get back after costs	GBP 8,730	GBP 7,410
	Average return each year	-12.74%	-9.52%
Moderate	What you might get back after costs	GBP 10,390	GBP 12,510
	Average return each year	3.92%	7.75%
Favourable	What you might get back after costs	GBP 10,830	GBP 14,170
	Average return each year	8.33%	12.32%

The stress scenario shows what you might get back in extreme market circumstances.

This type of scenario occurred for an investment between: (Favourable: February 2016 - February 2019, Moderate: December 2013 - December 2016, Unfavourable: January 2022 - June 2023).

What happens if Vontobel Asset Management S.A. is unable to pay out?

The investor may not face a financial loss due to the default of the Product Manufacturer.

The assets of the Fund are held in safekeeping by its Custodian Bank, CACEIS Investor Services Bank S.A. (the "Custodian"). In the event of the insolvency of the Product Manufacturer, the Fund's assets in the safekeeping of the Custodian will not be affected. However, in the event of the Custodian's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact that the Custodian is required by law and regulation to segregate its own assets from the assets of the Fund. The Custodian will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfill its obligations (subject to certain limitations as set out in the agreement with the Custodian)

Losses are not covered by an investor compensation or guaranteed scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost Over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10 000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	GBP 594	GBP 745
Annual cost impact (*)	6.5%	2.6% each year

(*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.37% before costs and 7.75% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% of the amount you pay in when entering this investment. This is the maximum that might be taken out of your money before it is invested.	Up to GBP 500
Exit costs	0.30% of your investment before it is paid out to you. This is the maximum that might be taken out of your money before it is paid out.	GBP 31
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.66% of the value of your investment per year. This is an estimate based on actual costs over the last year.	GBP 63
Transaction costs		GBP 0
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	GBP 0

Conversion costs: instead of exit + entry costs, you may be charged 1.00% in case you switch your investment to another Product in the Fund.

How long should I hold it and can I take money out early?

Recommended holding period: until 30/06/2026

It is recommended to hold the Product until its maturity date. Investors can sell the Product before its maturity without additional cost. Shares can be sold daily (on business days). Exit costs are presented above.

How can I complain?

If you have a complaint about the product or the person advising on or selling the product you will need to provide the details to the person who advised you or sold you the product. Complaints about the management company or the Key Information Document should be sent to Vontobel Asset Management S.A., 18, rue Erasme, L-1468 Luxembourg or luxembourg@vontobel.com.

You can also visit www.vontobel.com/vamsa for more information.
