Investment strategy

The Trust generally gains its exposure to a diversified portfolio of investments through a mix of investment managers.

Due to the Trust's high growth nature, it predominantly gains exposure to growth assets such as Australian and international property and shares and alternative – growth. It may also have a small exposure to defensive assets such as cash, fixed interest and alternative – defensive.

The Trust is authorised to utilise approved derivative instruments for risk management purposes subject to the specific restriction that the derivative instruments cannot be used to gear portfolio exposure.

The underlying investment managers may utilise strategies for the management of currency exposure. The level of currency hedging used for the Trust will vary from time to time. The Trust has the capacity to change the level and nature of the currency overlay to manage the Trust's currency risk.

Quarter highlights

- The trust gained exposure to international shares managers Brown Advisory, Intermede and Pzena over the quarter, following a comprehensive sector review.
- The alternative growth portfolio outperformed, with private equity outperforming against benchmark.
- The Australian equities portfolio outperformed, with the micro cap, mid-small cap and fundamental quality managers outperforming.
- The international shares portfolio underperformed its benchmark as managers Antipodes and EAM (both now terminated), and Alphinity underperformed.
- The alternative defensive portfolio underperformed its benchmark.

Notes to the trust profile

- The total estimated management cost includes the management fee and any performance fees (shown if applicable) that may be charged by underlying investment managers. These costs are subject to change from time to time and may vary depending on changes to the composition of the underlying assets, changes in exposure to underlying investment managers and where any unusual or non-recurrent expenses are incurred. Estimated performance fees if applicable are indicative and have been based on the annualised performance fees incurred as at 30 June 2021. Please refer to the latest PDS and www.ioof.com.au for full details on fees and costs.
- Performance is net of management costs and expenses. Performance is based on exit price to exit price for the period and assumes that all distributions are reinvested. Management costs and other expenses are accounted for in the exit price. Past performance is not a reliable indicator of future performance. Please refer to www.ioof.com.au for updated performance information. Performance data is provided by FE fundinfo (FE fundinfo (Australia) Pty Limited, ABN 18 601 868 311).
