Date of Production of the KID: 19/10/2023

What is this product?

Type

The Fund is a sub-fund of the Company, a UCITS authorised by the Central Bank, and this KID describes the share class above and the Fund.

Term

The Fund has no fixed maturity date, however it may be terminated in certain circumstances described in the Prospectus, including if the Net Asset Value ("NAV") of the Fund falls below US\$50 million. This share class may be terminated where its NAV falls below US\$10 million.

Objectives

Investment Objective

The Fund seeks to generate capital growth over the medium term by providing risk managed dynamic exposure to a portfolio of global equity securities and financial derivative instruments ("FDI") (ie instruments whose prices are dependent on one or more underlying asset).

Investment Policy

The Fund seeks to generate capital growth over the medium term by providing risk managed dynamic exposure to a portfolio of global equity securities and financial derivative instruments ("FDI") (ie instruments whose prices are dependent on one or more underlying asset).

The Fund will have at all times a long bias, but will seek to apply a "long-short strategy" and intends to take full advantage of the ability to invest in FDI providing long and, in certain market conditions, synthetic short positions.

The Fund will seek to achieve its objective through a dynamically risk managed global equity portfolio. The investment universe for the Fund is comprised of the largest, most liquid 1,000 global developed market stocks (primarily listed or domiciled in countries included in the Benchmark) and equity index futures.

The Fund may invest up to 10% of its net asset value in emerging markets.

The Investment Manager seeks to implement a portfolio which will have a bias towards low-beta stocks (lower risk stocks compared to the market), whilst maintaining high diversification. The main goal of the Fund is to deliver market returns but with lower overall volatility than the market. It is not intended that the Fund will have a particular industry or sector focus.

The Fund promotes, among other characteristics, environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR). The Investment Manager will apply an exclusion list of controversial stocks or industries which may be related to arms and munitions, nuclear weapons, tobacco and coal-oriented activities.

The Fund may seek to achieve its investment objectives and policies by:

(a) direct exposure to global equities; and/or through exposure to a

representative basket of securities (the "Reference Basket") by entering into one or more total return swaps linked to the performance of the Reference Basket. Total return swaps are bilateral financial contracts which allow one party to benefit from all of the cash flow benefits of an asset or portfolio of assets without actually owning the asset.

The Fund may invest principally in FDI to achieve the investment objective, for efficient portfolio management purposes and for hedging against anticipated movements in a market or security. FDI may multiply the gains or losses made by the Fund on a given investment or on its investments generally.

The Fund may invest in other investment funds and currencies. The Fund may also invest in money market instruments (including certificates of deposit, commercial paper, bankers acceptances, and government debt securities (above or below investment grade)) for cash management purposes.

Benchmark: The Fund is actively managed and its performance will be measured by reference to the MSCI World Index (the "Benchmark") but will not be constrained by it and the Benchmark will not be used as a universe for selection of investments.

The Fund's reference currency is USD.

Share Class Policy:

Any income earned on investments will be added to the value of investors' shares.

Processing of subscription and redemption orders

Investors can buy and sell their shares on each Dealing Day of the Fund.

Intended retail investor

Investment in the Fund is suitable for investors seeking a reasonable return, irrespective of market conditions, over a medium to long term period of a minimum of three years.

Depository

The Depository of the Company is The Bank of New York Mellon SA/NV, Dublin Branch.

Further Information

Additional information related to the Fund is located in the Prospectus which is produced in an official language of the jurisdictions in which the Fund is registered for public sale. The Prospectus is available together with the most recent financial statements, information on other share classes and the latest share prices free of charge at <https://www.man.com/>. The periodic reports are prepared in respect of the Company. The Company is established as an umbrella fund with segregated liability between sub-funds under Irish law. The shares may be exchanged for shares in another sub-fund in accordance with the Prospectus.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the Fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the Fund which are not taken into account in the summary risk indicator, please read the Fund's Annual Report or Prospectus available at <https://www.man.com/documents>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		\$10000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	You could lose some or all of your investment.		
Stress	What you might get back after costs	\$1580	\$2610
	Average return each year	-84.22%	-36.06%
Unfavourable	What you might get back after costs	\$8040	\$9090
	Average return each year	-19.63%	-3.12%
Moderate	What you might get back after costs	\$10740	\$13050
	Average return each year	7.41%	9.27%
Favourable	What you might get back after costs	\$15400	\$18020
	Average return each year	54.03%	21.68%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between December 2021 and September 2023.

Moderate scenario: this type of scenario occurred for an investment between December 2014 and December 2017.

Favourable scenario: this type of scenario occurred for an investment between December 2018 and December 2021.

What happens if Man Asset Management (Ireland) Limited is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of the insolvency of the PRIIPs Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). If the Fund is not able to pay out what you are owed, you are not covered by any investor compensation or guarantee scheme and you may face financial loss. There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10 000,00

	If you exit after 1 year	If you exit after 3 years
Total costs	\$160	\$581
Annual cost impact (*)	1.6%	1.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10,9% before costs and 9,3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 3 years. You may buy or sell shares in the product, without penalty, on any normal business day by submitting a subscription or redemption request in the manner set out in the Prospectus. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares. If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

How can I complain?

If you have a complaint about the Fund or the conduct of the Manager or the person or entity advising on, or selling the Fund, you should in the first instance contact Man at Man Asset Management (Ireland) Limited, 70 Sir John Rogerson's Quay, Dublin 2, Ireland.
