Charges and expenses may have changed over time, which is reflected in the performance figures. The Fund performance shown does not take into consideration any additional charges that may apply to your scheme.

Benchmark performance shown in our tables and charts is for comparison purposes only and is based on Total Returns, which assumes the reinvestment of any income. The benchmark will not include any costs and charges that apply to the Fund, which could be a reason why the performance of the Fund may not exactly match the performance of the benchmark.

The fund performance figures refer to the past and past performance is not a reliable indicator of future performance. You should be aware that the value of investments may fall as well as rise and is not guaranteed. You may get back less than you invest.
