What is this product?

Type

This product is a UCITS Fund.

Term:

The Fund, unless dissolved pursuant to any specific cause set forth in a mandatory law or in accordance with the prospectus of the Fund, is established for an unlimited duration.

Objectives:

The objective of the Nuveen Emerging Markets Impact Bond Fund is to seek favourable long-term risk-adjusted return, through income and capital appreciation, by investing primarily in a portfolio of emerging markets fixed-income securities. The Fund directs capital towards issuers that demonstrate environmental, social and governance leadership and are best positioned to address social and/or climate challenges, or securities that meet Nuveen's proprietary fixed income direct and measurable Impact Framework.

The Impact Framework is proprietary to the sub investment manager and seeks opportunities to invest in publicly traded fixed-income securities that finance initiatives in areas including affordable housing, community and economic development, renewable energy and climate change, and natural resources.

The Fund normally invests its assets in sovereign and corporate bonds of issuers that are located or listed in, or otherwise have substantial exposure to, emerging markets. The Fund may invest without limit in bonds with a credit rating lower than investment grade.

The Fund's investments are determined based upon the sub investment manager's belief that the Fund can take advantage of what appear to be undervalued, overlooked or misunderstood issuers that may increase the Fund's profits. The Fund's investments in fixed-income securities issued by corporate entities or governments are subject to the Impact Framework or ESG criteria which establish whether the securities of a particular issuer are eligible for inclusion in the Fund.

The Fund expects to invest a maximum of 10% of its Net Asset Value in securities denominated in currencies other than US dollars.

The Fund is classified as a financial product with a sustainable investment objective as described in Article 9 of SFDR.

The Fund is actively managed and uses the JP Morgan EMBI Global Diversified Index (the "Benchmark") for performance comparison purposes. While a proportion of the Fund's assets may from time to time

be components of and have similar weightings to the Benchmark, the Sub Investment Manager has discretion in the selection of investments for the Fund and may invest in securities that are not included in the Benchmark. In addition, the Benchmark employs different investment guidelines and criteria than the Fund. As a result, the holdings in the Fund may differ significantly from the assets that comprise the Benchmark and the volatility of the Benchmark presented may be materially different from that of the performance of the Fund.

The Fund may invest in financial derivative instruments ("FDI"), which are financial instruments linked to the value of underlying assets. FDI may be used for, e.g., managing the Fund's exposure to foreign currencies, reducing risk, managing the Fund more efficiently and to achieve profit. At times, the Fund may invest in cash and instruments that can be readily converted into cash.

Any income the Fund generates will be reinvested to grow the value of your investment.

You may purchase or sell shares of the Fund on days on which both the New York Stock Exchange and retail banks in Ireland are open for business, subject to certain cut-off times.

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This document describes a sub-fund of the Company. The prospectus and periodic reports are prepared in respect of the entire umbrella Company. The assets and liabilities of each sub-fund of the Company are segregated by law, and so the assets and liabilities of one sub-fund cannot be used to discharge the liabilities of another sub-fund. Each investor of the Fund may apply to exchange shares in the Fund for shares in another sub-fund of the Company as set out in the Prospectus.

We are required to provide you with further documentation, such as the Fund's latest prospectus, past performance and annual and semi-annual reports. These documents and other product information are available online at www.nuveen.com/ucits.

The assets of the Fund are held in safekeeping by its depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary").

Intended Retail Investor:

The Fund may be appropriate for investors who have a long-term investment horizon. The Fund is not designed for investors who are unwilling to accept volatility, including the possibility of sharp share price fluctuations (including declines) or investors who are seeking to invest to meet short-term goals.
