Fund opportunities

JB Strategy Balanced fund follows the proprietary Julius Baer investment approach that reflects our CIO's market view. It seeks to capitalise on long-term secular trends and also benefit from short-term opportunities arising on global markets. It offers global exposure to all asset classes and investment styles. The portfolio reflects the reference currency and the chosen risk profile.

Risk factors

As the fund features wide exposure limits to equity and fixed income investments, the portfolio may be negatively impacted by significant fluctuations in the value of these respective asset classes.
