

Performances Passées

Ce document vous fournit des informations sur les performances passées.

Les performances passées ne constituent pas une indication fiable des performances futures. Les marchés pourraient évoluer très différemment à l'avenir. Elles peuvent toutefois vous aider à évaluer comment le fonds a été géré dans le passé.

BLB - American Equities - Classe I - ISIN: BE6309897476

Un compartiment de SICAV BLB, Organisme de Placement Collectif Public de droit belge.

Performances Passées

Ce diagramme affiche la performance du fonds en pourcentage de perte ou de gain par an au cours des 5 dernières années.

Performance Table

	2019	2020	2021	2022	2023
	31,6%	21,9%	18,6%	-19,3%	17,4%

Date de lancement du Fonds : 19/12/2018

Date de lancement de la classe d'actions/parts : 21/12/2018

Les performances sont calculées en USD

La performance est affichée après déduction des frais courants. Les frais d'entrée ou de sortie sont exclus du calcul.

REALOBJECTS PDFReactor®

Evaluation Version

This PDF document was created by an evaluation version of RealObjects PDFReactor 11.6.10 (15798). The evaluation version is fully functional, but includes this information page. It must not be used for production purposes. The information page and all other evaluation notices must not be removed from the PDF file.

NOTE: Conversions in evaluation mode might be slower and the results might have a larger file size than in production mode.

About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.
