Client message sentence

- Thank you very much, I will reach out to the client
- Thank you, I will speak with the client. the theme is now appearing as intended.
- the changes are applied as intended
- Very slight spacing issues persist as shown below
- Please may you reduce the space in the red box (shown above) to allow the wording to fit the page.
- Thank you for all of your work on this. I can confirm that all is now as intended, and fits the page.
- The Temple Bar logo has resized for FrostrowLight_UK theme as intended, but this has had a knock on impact on all other logos that this theme utilises. Please may you revert the

change and apply the reduction in size to the Temple Bar image only. I have given an example below

- There does not appear to have been any update to the FrostrowLight_EU theme. Please may you action the change to this theme also.
- Please may I remind you to apply themes only in the environments requested
- I have resized the Temple Bar logo for FrostrowLight_UK theme as intended & pushed the changes to staging environment. Kindly review the change & let me know.
- This is appearing perfectly for FrostrowLight_UK. I will pass this onto the client for review.
- I have resized the Temple Bar logo for FrostrowLight_EU theme as intended & pushed the changes to staging environment. Kindly review the change & let me know.
- Please may you action the requested change for FrostrowLight_EU in the initial User Story Summary.
- all changes look per my expectation. I have passed this to the client for review but do not expect any further feedback - marking as "Done" accordingly.
- these look great. I will pass these all UBS mock-ups over to the client for review, and will raise a new ticket is any changes are required.
- All text throughout the document needs to be left-aligned (sorry, this was my mistake to ask for it to be justified previously)
- All body text needs to be 9pt, with the spacing between sections as 12pt
- Please can you replace the current UBS logo with the attached "ubs_semibold.4c.jpg" file
- Please can we ensure that the fonts in use are "Frutiger light" and "Frutiger bold" throughout the document. I have attached these to the ticket - apparently the previously used "Frutiger 45" fonts are not correct, sorry about that.
- Please could make use of the full page, as there is a lot of empty space towards the bottom of the page.
- Feedback was addressed more than 2 weeks back. Closing this ticket.
- Closing this ticket and will re-open if we have additional feedback.
- Feedback has been done. Please verify.
- Closing this ticket and will re-open if we have additional feedback.
- For new themes - please do not re-open the existing ticket. Please create a new one with the same details and ticket reference to this one.
- As discussed, here is a batch of client comments/requirements to 'UBS_MPD_publifund_standard_theme'
- Those would be applied across all themes under UBS, but we agreed with client to develop the basic/master UBS theme and then apply changes to other themes.

- Since it's a couple of items, I've consolidated all in attached document
- I'm not very sure with your last comment - but FYI.
- I still can see it (split words) by other themes - but I will review those later - theme by theme - and raise by relevant tickets (accordingly to affected theme).
- please revert the 'ISIN row' from bold to standard font - done in previous step and client prefer to stay with non bold.
- Client is still not happy with the table 'long words' solution. They rejected current layout since "the headers content overlaps with other columns. As shown on the screen below (example attached). They said they want robust solution which does not need a designer action every time when some issue with language or theme appears. They said they accept word splitting with correct grammatical hyphenating. Can we try this please
- It is not possible to spilt the text. I attached some refernces..Please check
- I have some feedback on the PP and KID
- Please could we ensure that the table in the PP doc is not aligned to the left, and is instead across the page?
- The years shouldn't be squished together
- is there any possibility of this being done today?
- For the KID, Ennismore have requested that the logo is moved to the left hand side. Are we able to do this?
- Please could we align the table in the MS theme
- I have taken this project over from Rubina. Thank you for all of your work so far, the client has come in with two further design changes if possible.
- they would like to switch the header so that the Key Information Document is on the left, and the Ennismore (name) Fund Management is on the right.
- I will revert to the client for more information on the below
- I will get it across to the client now for approval.
- The client has reverted and now wants this change on the theme on the PP, sorry they are sending them one by one.
- They would like to change the highlight on the below from orange to grey. They didn't provide any colour code, so any light grey is acceptable.
- This one is super urgent so if you could get back to me in the morning with anything else I need to provide, that would be great.
- However, it is now showing like this
- I have sent these to the client and they said changes look good and will revert
- Thank you so much for your help so far - Just one more issue please

- Thank you for this, much appreciated. Just a couple of points
- please find the pdf including client comments for correction, as well as a PRIIPs V1 for visual comparison if needed
- I have updated the few corrections as mentioned in the PDF files and a few are unable to make it due to the class names (Field names) being unknown to me (ex: under the Product section) and the Assurancevie.com logo is not available in the existing (old) PDF which has been removed from the PBI apart from this kindly check it and let me know your feedback.
- Note: this will take a few iterations to fix due to field names being unknown as mentioned above.
- Can you please create a duplicate of this theme but without the logo "assurancevie.com" at the top right of the template
- Here further changes to make
- The colors should be opposite on the Risk scale (grey should be yellow, and yellow should be grey,
- A reference pdf has now been attached.
- Sorry for the delay, client took time to put KID in pre validation status
- I've noticed some discrepancies between this theme and the other theme.
- Would it please be possible to harmonize by
- Further to our discussion just now. The layout of the PRIIPs KID document for ICG in staging seems incorrect. Please can you copy the layout from the live environment into staging. The document in the live environment is correct.
- Many thanks for this quick turnaround. It looks good to me. Will send this to the client for their feedback.
- When trying to add this theme to a template, I get this error: Are you able to assist with this please?
- The theme already exists can you check it once again?
- Please could the Fund Name at the top of the page be made a larger font, so that it is more prominent
- Please could you fix the formatting issues on the performance table
- Point 1, kindly check with the development team,
- Point 2, please change it in admin, if we make it our end when the content has changed then it will lead to alignment or overlapping issues
- I have update the template to add 4 new fields that would only appear for Swiss document.
- As you can see, the newly added fields do not appear on the document
- Can you please check and confirm if its visible at your end or not.

- I noticed there's no reference to logos in the MP/PP themes - please can we update the theme names so that these are easier to identify for both design and us? Or if we could have a mapping, that would be great.
- I didn't find any word document regarding colors scheme for logos. can u please look into this.
- As mentioned, we need to work as per logo color, but your statement is conflicting with word document. In the document for the single color logo, they have provided 2 colors. could u please confirm for this, so that we can go ahead.
- Please ensure that Year dates "YYYY" show on a single row. Currently this is displaying across two rows:
- Please may ensure that the Advice Capital logo (attached) is added to the FC_invest_advice_capital_PP theme. Currently this theme is not displaying a logo.
- Please may you ensure all three themes are utilising the attached "investadministration-lanspar" logo. Currently this is inconsistent throughout the themes.
- Past Performance document should display this information in a shaded box (#F1F2F2) per the other themes. Please amend accordingly. I have added a preview in the attachments.
- I have reviewed and am now happy with all 42 themes across the 3 templates.
- I have reviewed the changes. It looks great. We will get this accross to client.
- I have changed the theme for the KID and this is now displaying as intended
- No further work is required on item 1.
- The attached document refers to PRRIP's KID document but in the description mentioned in "PRIIPs Past Performance Document Template Name" please confirm which template should we use?
- If you need Past Performance Doc. theme then kindly attached the sample past performance document.
- The design of the past performance document needs to match with the KID document
- The monthly performance document is a new document, so we don't have an existing example to base this off
- Shall we correct the logo position for all other themes or only
- I do not believe the positioning matters so this can be left as is
- I asked the client for confirmation, therefore these are pending for the time being
- The client approved the design. Therefore, this ticket is done. Many thanks for all your work and patience
- please check the lines thickness - if it's screen resolution issue or something else. I need to make sure before going to client.

- we have reviewed the last issue with @Lisa Callow (from +Docs point of view) and it seems to be theme related. It is not replicable with different theme.
- Please review Carmignac logo's aspect as it seems squizzed and fuzy
- Could you please check the Logo's as they seems not clear, fuzzy..
- Can you please, correct? apart of this, the client is happy and will sign off.
- as discussed, the client which was ok so far has decided to change many things under the Carmignac theme
- Sorry for the delay in coming back, just one point
- Could we reduce the font size of the Fund Name so that the long fund name (link below) is reflected across 2 lines.
- The font of the fund name is wrong - please refer to brand guidelines attached.
- Please leave the rest of their comments as these are things for me to do my end.
- Please can we decrease the font size of this section so that we have a little more space on the page
- The sector breakdown key is very spread apart, please can we bring these in much close together and bring the spacing between the section above in so that we have enough space for this to fit on one page.
- Layout on second page should be as per the mock up.
- The client is happy and has signed off the template.
- Please can we revert the layout to the previous version? It was just the font, weightings and colours that need updating.
- Thanks for getting this done so quickly. Much appreciated. The client is happy with the changes.
- Can you please make a duplicate of the 4 Carmignac template/themes below in UAT and PROD environment
- Duplicate themes have been created and is activated on PROD Environment.
- Hi, thanks for the below, apologies I thought I replied to you.
- The theme already exists can you check it once again?
- Moreover, I've checked on Live environment and added the mentioned classes and its visible on the template. I'm attaching the PDF for your reference.
- Can you please check and confirm if its visible at your end or not.
- However, I tested the design on a template in a different project and with different narratives, and for some of the documents, the borders seem to break, while for other it works. Can this be looked into please?

- There are a couple of things that we noticed with the current theme that we would like to correct before presenting to the client again.
- The icon for the charting tool appears to be missing, could this please be inserted?
- The basket appears to be missing but it has been enabled in the config tool, has this been hidden by design?
- Move Delete All button in line with other buttons in portfolio page
- Thank you for your assistance. There are a few things that I noticed that need to be amended before I give this back to the client
- I am very sorry about this but the client has done a complete u-turn. They are now reporting that they want the new theme to be based off an existing SJP project but with Zurich's colours being applied.
- I think you should be able to copy most of the styling elements from this theme and simply amend the colours to those of Zurich.
- I'm not understanding what kind of changes you're expected, Can you please explain in call?
- I'm unable to use the Style Editor tool to amend the colours on the pie chart - can this be overridden by the theme? Are you able to identify what is missing to allow us to amend this using the style editor tool?
- thanks Hemapreetha (Guest) will check on this and provide a review
- It needs to be same style as this
- the client also mentioned the changes being made on the XML version (where they access it from their own portal) they have said this has previously differed when changes have been made so will you be able to confirm if this will be done also?
- ok that's fine - let me know if you need me to help with anything
- thanks for the changes - reviewing I had raised whether there is data under this functionality:
- when you click this nothing comes and not sure if this is a data issue or an issue with the functionality
- I have been speaking to my team and have been made aware that this may be an issue with the theme - as when the theme is changed to water it is functioning fine and therefore may not be a dev issue. Please can you investigate this further on your side to see what can be done
- Just to let you know that I'm working on the requirements as mentioned from the basics. It'll take some more time to just get it done. I'll revert back to you accordingly.
- Further to our chat, the theme name for this request would be 'MatthewsAsiaPRIIPS'.

- as discussed with you on teams. text below the chart is coming from the design end and hence we cannot target it to make it selectable. If it will come from the HTML, only then it will be selectable.

Raising ticket

- I'm raising this ticket on behalf of @Suja Subramanian . We have had a change request from client relating to ISIN: DK0062267282. Please can you create a new theme for the client. I am attaching a document pertaining to another theme, for your easy reference. They would like to publish this on Friday, so please treat this as urgent. Thanks for your help.
- Not replicable for Designers. Ticket raised for Developers.

Template structure

- NOTE :- The template structure has been changed which causes this issue. SRI section is not coming inside Page 1. Please see the below screenshot. row3, row4, row5 are coming directly inside the body tag and not under the page1 class which should not be the case.
- I've checked the issue and it is because of the template structure being changed. The table data class is coming outside the page1 class and hence the page1 properties are not being applied to it.
- I've checked the issue and it is because of the template structure being changed.

Client Chat Messages

- Hi Hema, yes please - the arrow (and legend to it) is required to be below the numbers and the triangle with acclamation mark is required to be in the upper left corner of the text box below.
- Thank you, it makes my day to hear that.
- Trust you're well. Can you give an idea of what exactly needs to be aligned with the triangle section. (If you can specify the class name).
- Hi Amit, doing well, thanks - hope you're in a similar situation.
- honestly not sure with your question - could you look at UBS Standard theme for an inspiration please?

- Thank you and sorry for the confusions.
- I need single row contain left section side text & Another row contain right side section text
- Yep this is what you explained me in last call : the point would be to have all these 13 rows refactored in two - so there would be no more hectic split done in the middle.
- I understand that the crazy layout issue is due to the multiple lines - when all is simplified in 1 line per side, it creates one block that cannot be split between two pages
- Just to be sure that in future the same issue should not replicate again and again, that's why I'm proposing you to consider this structure of storebrand as a reference to make changes Vontobel template.
- If we will have a common html structure same for every client, then it's easy to handle at our end.
- I agree on that with you
- Just to know : if there is an issue, the fallback solution is to revert changes, right ?
- would it be a lot of work to perform a duplicate of the vontobel generic theme, to perform the refactoring of the SRI and to push the new theme in UAT ?
- I don't know if the duplication of the theme makes sense though
- I understand your opinion, As suggested earlier, It's a change which require attention at html/ template end.
- If there would be a chance of handling it through theme end. I would have handled it already or suggested you earlier.
- Oh ! right ! and I was understanding things at theme end ! is that it ?
- No, it's need to be at template end
- I guess Emmanuel Servais would help you out in this.
- Yes but he just started his holidays
- Do have someone else to check with?

- So in terms on template the positive thing is that there is just one (that's good news for me)
- but Stef tells me that template modification is on your side, so I don't know to whom I can address this request now
- I think you need to check with developers for this.
- we're not handling the html structure or any template change
- Thanks A lot Hema for your help - I am so sorry for being so confused - I have reached Mohamed Yasser to have some more infos for my request
- Hi Hema, I spent two days asking who would be in charge for the SRI template change for Vontobel and after a lot of discussions with a lot of people, Mohamed Yasser told me that it is a UX designer task.
- Hi Laurence Danthez, We discussed with Mohamed Yasser in call internally & doing some structure changes, Finally he told the structure change from product consultant end.
- Please suggest the time when you're available for call?
- Hi Hema, I just finished my morning client calls - I am totally available now whenever you are ready.
- Let's have call in 5 to 10mins
- Yes let's do this
- Manu has asked Shyamla to implement a solution yesterday on the client Carmignac in order to fix the SRI - I would like the same solution applied to the SRI for Vontobel - could you please ask her what she has done to fix the SRI issue ?
- A change of template is not possible as there were some tailor made implementations done especially for that client
- Lovely - thanks a lot!
- Shyamla told she fixed it for single page only not 2 pages
- That means some gape showing in previous page, is that okay?
- Yeah that's it - can you apply it as well - I will update the DevOps ticket accordingly
- I think we will hardly do better - the only problem will be if the PRIIPS go to 4 pages but if It's only in single page it should follow the narrative, so I am quite confident that it can work
- Okay, if that content goes to next page means we can reduce little bit spacing
- whenever you have time - I will update the ticket - thanks a lot
- Haven't updated it yet - I will start by updating it then I think I have to ask the client to push all PRIIPS in Preval before you push the changes - for this second part I will keep you updated
- Updating the ticket now
- yes please - thank you so much

- I will revert to client so he can push all the docs in Preval
- no worries, he might do it today or not but now that we found what to apply there will be some time for improvements as the meeting is next Wednesday
- at least I will have something good to show the client.
- hi, received a leave request over Keka, please inform to client as well and take approval
- Hi Hema, how are you?
- would you have 5 minutes for a service?
- Following the case 319063 with client Vontobel after the SRI the "Single Page Fix". Client has finally pushed the PRIIPS in Pre validation today. Could you push the files once more in staging and live environment so I am sure that all the fund range scope benefits from the change? Thanks you so much
- I will need your help today to fix the Vontobel issues - do you think that can be feasible? Thanks.
- I really appreciate working with you Hema.
- Ok as everything is pushed in live environment (thanks for your confirmation) I may come back with some discrepancies - let me check I should revert to you in 15 minutes.
- I have updated the Devops ticket - do not hesitate to come chat with me if anything
- Can I add ISIN LU2677656261, if you can have a look to this one too please
- Well I am finishing my overview if there are some more to add as well
- I have found some more to adjust ... I still have more checks to do on the range but I need to eat something. Will grab some food and be back in a bit.
- 2nd batch looks good too
- great work you are doing
- I just wanna know : did you have to go through each isin to modify the underlying script for each ISIN I gave you?
- Hi Hema - how are you today? there will be some modifications requests for Vontobel on the other themes of the fund range - whenever you have the time thanks
- looks good - I will be adding changes on new themes now. it's an endless story
- I think you can fix it on Monday no probs. I won't have time to recheck everything today
- Week end time for you - it is well deserved - thanks again and you are right to ask
- Hi Hema - I will do that right now - thanks
- yes please - that's bizarre because after I checked on Friday after the addition of the page break before "Composition of Costs" I performed some checks and I noted the MIV range as OK. this vontobel range is getting a toll on my sanity.

- Go ahead with the change Hema and I will recheck them - If we need to revert I will let you know
- I am looking at the moment at the Tareno and there are still SRI with weird splits - let me show you here attached.
- On my side I have done a refresh so if the changes are pushed it should be ok right ?
- I have performed the control check on pF and on the Vontobel theme for three ISIN I have an overlap again on 4 pages
- they are the same though the configuration
- I made them the same yesterday
- I'm not sure why that link is completely different, but thanks for letting me know
- That the changes has been done and pushed. Kindly verify at your end
- Looks great, thanks for your help.
- Can this be looked into
- Can you please provide the link where exactly you are facing this issue.
- We have a design issue for embark group where Export to excel and Delete all buttons overlap with each other in fund centre. The similar issue is also reflected on the Saved Portfolios page where the buttons "Show selected Portfolios and Portfolio Management" is overlapping with each other
- We are not able to replicate this issue, can you please provide the link of the exact webpage where its occurring or we can also get on a call.
- It is supposed to be in this url.
- This issue happens when we have saved portfolios tab enabled.
- However we are unable to see the tab in this layout even though its been enabled in project level.
- This is the responsive layout can you verify it in different resolutions.
- Is it available to see the Saved Portfolio tab can you share the scenario how to view this tab so that they can find the solution to fix the overlap issue.
- I'm not very familiar with how to enable saved portfolios tab, have asked for help from our QA. Will respond once I get assistance from them.
- Please contact dev, they give more idea about how to change colors in style editor, Thanks Hemapreetha, will raise with them.
- Thanks for confirming on this one.
- I am still getting errors when I change to PDFa for the MUFG and PhoenixESG theme, I have attached the errors output from the PDFa analyser - please could you have a look again?

- Need dev support here. Yesterday I spoke with Mohamed Yasser, He told he is working on some urgent ticket. He will check later.
- These docs have the % coverage text generated/pesg/fs/647762/ - this is a new addition, the formatting and text colour should match the section above.
- Could we make the text above the highlighted text black? Same for all themes to match the text in the top section.
- No both should be black in this section.
- This is correct font size and weightings - purple section should match this, so not pink text but black
- Could we make the coverage text not bold - just checking their mock up and it is reflected like this:
- Yes perfect thank you
- Sorry that I don't know who that would be - is it possible to include the tick when selected and keep the box the current size?
- okay, will see if I am missing something my side in the config first
- this will do for now
- Hi Hemapreetha, please ignore these comments - the client will need to provide these. Apologies hadn't realised they'd commented on the images.
- Quick question - for Documents (factsheets) if we have text that is all upper case (i.e. FUND INFORMATION) can this be made lower case using the theme? We have a client who has 3 designs where all caps for headers is fine, but one of their designs they'd like lowercase headers, but we have set all caps in the admin.
- That's one is possible (If they want it all to be in lowercase). Please share docs on ticket. I'll review it.
- Hi Andrew Ward, couple of questions, as Amit Sharma (Guest) mentioned it's possible since it is a header text and set in all caps in the admin however, there will be an issue in future if it requires capitalized format (e.g. Fund Information). Do you want to make it avail for all the cases then is it possible to set in all lowercase in the admin then we can make any cases?
- Sounds like this is perhaps a little bit risky and not very futureproof. I would rather (and likely the client would agree) not make any changes to the template as it is now and avoid having to update the other themes.
- Logo size changes done in local. Please check is that okay?
- Hi Hema, well, my idea was the logo to be a bit larger, say, the "S" of the APIS logo to be aligned with the Search box.
- But not sure if it is feasible - if the provided logo is good enough to make it larger.

- Yeah attached logo image is small, so stretching. Can you please provide large logo image?
- Do you think the impact on the quality of the logo would be massive?
- I can't - we haven't liaised with the clients so far
- We can go with the smaller one for the time being.
- I think you can fix it on Monday no probs.
- I won't have time to recheck everything today.
- Anyone has ever use vectorized format of logo in +docs. If yes, share client name
- What's the issue with it?
- Please check around, you must have used it anywhere.
- I think it must be any case of either Emmanuel or Maryline
- Can we convert the svg file format to png using either photoshop or illustrator?
- I did tried, it's done using photoshop, will confirm you on call.
- Hi Hemapreetha, I will attach the PDF now.
- I haven't quite uploaded it yet! please give me 2 minutes, my system is being a little slow
- Hi Hemapreetha, I am really sorry! +Documents staging is down and im unable to create a new PDF.
- I've created this ticket James Webber: Hi P+ Spartans Please assist with the following issues 1) +Document... so hopefully will get resolved really quick and ill generate the new preview. thanks.
- oh no problem. this is just an internal ticket it doesn't matter that you can't access it. but once this ticket is resolved and +documents is working again i will be able to access the tool and get you the new PDF.
- It is finally fixed. Yes, that looks great!
- Does the "Growth of \$100,000 since inception" chart now fit onto page1?
- Great work! Thanks Hema.looks all okay.
- hey hey Hema ! by "template id" you mean the pdf that I put in attachment? I will attach them in 5 minutes
- UAT would be staging (no live environment).
- oh template name are in the description.
- don't hesitate if I am no clear.
- I think I know why ... this is +Doc staging and I took the templates/themes from the production pF.
- I am afraid that +Doc staging is not up to date, meaning showing the same templated as +Doc production.

- Hema please don't bother ...
- I have discussed with Stef and she told me to use the live environment and not staging env
- Can you please perform changes on the templates live and upload them in prod afterwards
- ok nice - so if you could duplicate the theme attached to the template and rename it with a v2 that would be great.
- sorry already in a call guys. sorry call just ended now
- I have another request that would it be possible to decrease the footer please
- Sure I'm checking now. Still not appearing properly
- no warning triangle. I did check the pdf for other products and it's not appearing well.
- it does not make sense
- Can you explain me why the layout is ok for one share-class, but not ok for other share-classes?
- It has to be consistent
- Good news is that now the warning triangle appear correctly.but if you check the page count appear twice
- I told you, the previous one is ok, but I did check for other isin and for others it's not
- I do not understand how a same theme can appear differently for a same client depending on the share-class
- Twice the page count and twice the bottom line. and page count is missing on page 3
- Can you make sure it correctly apply on all the client's scope, if we have to check 10000 documents it won't be possible
- I've received the font files and updated the spec file accordingly, so I attached the updated spec file to the ticket, on the 2nd tab called "Fields order and format" youi will find the font to apply for each hardcoded field, and for the body text per default. Normally all the font size are already correct. Do not hesitate to ask me in case of any doubt, a draft will be sent to the client Tuesday EOB.
- Also, they have a new logo, I attached it as well and put the instructions in terms of size and margin in the comments of the ticket.
- Project manager just messaged me now to remind me that the changes must absolutely be ready today, will it be ok?
- We're working on the changes now.
- I have to send 3 documents to the clients, I will send you right now the three pdf to make sure that they are all good
- Just to let you know that for some ISIN's having more content the page number is breaking in that cases.

- It should not a document must be onto 3 pages maximum.
- So suggestions, here would be to either adjust the padding & margin values or the content should be less.
- We have to update the font and then do the needed changes to have them onto 3 pages.
- Yes, we'll see once the correct font is applied.
- Once done the font changes. Will callback you.
- Page counts appears twice in the other documents, but the rest is fine indeed
- Just let me know once the font is updated, then we'll review together, and I ll provide you with the other pdf.
- Sure, no problem, I kept my morning free for you guys
- We can continue altogether then
- Sure, wait just 2 sec I take my headset
- Page counts have been removed from the client narrative
- Thanks Hemapreetha, I will present this to MSIM, let's see what they'll say.
- But to be fair, I expect that we need to do some adjustments later, now it's again with too much space, but I won't ask you to change it again now.
- The spacing looked really good when the police was 9pts, then we changed both the police to 8pts (which is correct) and the spacing, while the spacing was ok.
- Dear both, many thanks for yesterday, we manage to send 1 document to the client. We've just noticed that the risk box is empty, the DRM forgot to upload the client's narratives, it has been done yesterday, so only 1 change on your side, the following fields
WB_SRInarrative2_4 and WB_SRInarrative2_5 should be included in the box as follow :
- A third sample will be sent today, I've updated the ticket with the abovce instructions and attached the pdf. Thanks a lot.
- the box itself is perfect, it just need to includes these two fields in there and we're good
- I've done it already, or I don't know how to do.
- yes that what I did, so unless you can tell me how to do, I'm not sure what you want. I've moved the two fields just below the SRI table.
- Guys, would it be easier for you like this.
- The sentences next to the triangle, with no border.
- Wait I am trying something.
- Great, I did check three isins and it works well for each of them. Thanks a lot. May I ask you to share this with other designers so nobody will struggle in the future.
- The same image you saw. I showed it to you. It was in full page but poor resolution. Please check.

- Have you been assigned the PGIM task?
- I thought Amit said that yesterday. No issues. I will check with Amit.
- I was able to download the document. It looks good. Thank you.
- Can you bring that question to the next page?
- No Hema. I will let you know if something is required.
- That would be for tomorrow. So you can leave now
- Forgot to hit the 'save' button after uploading, that's a new one. They are uploaded now, thank you.
- Will check now, thank you for such a quick fix!!
- Thank you so much it looks a lot better I will share with the client and let you know but thanks so much for the quick fix
- I'll send to the client and see if they have any feedback.
- Do you know who we can contact if Mohammed Yasser is not available?
- There are many devs like Christopher and all but not sure if we can directly reach out to them or not.
- You can ask Prachi regarding this
- Have you get any info related to Canaccord client?
- Ohh, didn't expect this too quickly.
- It's ok. We can wait for that. Just make sure to ask her this too on ticket.
- Yeah today, I'll have a call with Michael.
- Will be taken care off.
- You're super amazed, thanks for highlights
- You know what Karel back again
- He was unsure of feedbacks but maybe today we'll have a call setup.
- I mapped the theme name now
- let me know if you need me to do anything else
- Might take a while to reflect
- I have only just made the change
- Are you able to create theme without it?
- Andrew only gave me handover for the theme
- He didn't let me know requirements for building
- I'll look into this later and get back to you
- As per the brand guidelines, Please provide 3 font.
- What is the actual requirement needs to do now?

- To create the theme as per the branding guidelines and Andrew's comments on the ticket
- The html factsheet I will look into the issue with the url not working later
- Lucy the PM is asking the client for the font
- For now could you use arial until the client sends through the font?
- Hi Hema, hope you are doing fine - I have created a devOPs ticket 337591 - if you can discuss that change request with your team, that would be lovely
- Hema, I have another change for Vontobel ticket 332660 - whenever you have some time as this one might take a while - let me know if you have any questions related to it
- The upper title Past performance with the background is great = keep it
- The lower title Past Performance will be deleted, so non need for a background
- adding now - will make some time
- I am uploading the pdf (but I'm constantly interrupted LOL)
- You are done with your day and you want to know if this can be done by tomorrow? YES of course, no problem Hema, you can see that tomorrow
- I will have plenty of time for uploading the pdfs then
- Hi Hema how are you today? do you had some time to check 332660?
- I have added another request yesterday, I know it is a lot
- Yes that was the second request, I will need duplicates of PRIIPS themes
- I am giving you all the pdfs now even when not needed (as I forget them constantly)
- I know you do. updated - here if you need anything - thank you so much
- Past Perfomance are looking great.
- I think i requested this one and never used it. same time for the miv theme v2
- on the 4th October
- ok no need to duplicate this one
- Hello Hema - I have pushed a new request regarding the themes created yesterday
- I would need them to be attached also to new templates I created in live environment - you will see the detail in the devops ticket 332660
- I wasn't ready yesterday with the creation of the cloned templates ... sorry for the late request
- Oh Hema I remembered I can do it by myself
- Hi Hema, how are you ? thanks for the great work - I was off and I am only checking now, I love what you have done with Vontobel
- Hi Hema, how are you ? I have popped a new fix request for client DPAS - DevOps ticket 341295. If you can check with your team who can take it, it is a quick fix, that would be lovely, Thanks a lot.

- If you can wait a bit, I will ask confirmation to the client with the screenshot you provided
- Hema I would need your help regarding the rebranding for a client, it is well advanced and at first ,it has been assigned to one designer and then it went to another designer - right now I have an issue as changes on a specific theme are not showing in pF - I have tried and discussed with the designer that told me that on his side everything is OK (and he shared his screen and it seems that on his side it is ok.
- Do you see them now ?
- Knowing that you are busy I would like to know if you could have a look - it is not urgent but I am a bit stuck really ...
- Regarding which ticket Laurence? It is DevOPs ticket 320124. the two pdfs have been attached - thanks Hema - if you have any questions.
- this ticket file not showing now
- Hi Hema - I had confirmation from the client that the modifications done are OK
- Hi Hema how are you ? I would like to know if you would agree working with me for the last changes on the DPAM rebranding project (ticket 320124) - it is the finalizing phase with few changes to do on the EU PRIIPS after client comments + MP and PP ... working with you would help me a lot
- It is your choice regarding the amount of work you have to do ofc
- I'm busy with other ticket, That one is Amit ticket, So please contact him
- Hi Hema sorry fo the late response - yes you can go ahead and apply Roboto to the chart section too - thanks
- Yes that's right - in this case there is no Performance Table
- Yes - and I would say to the subtitle and the chart below too (with Roboto font) and I will send it to the client for his comments.
- Thanks so much Hema for dealing with this ticket I appreciate your help. that's good.
- Yes you can apply to both environment thanks.
- Yes I will check that in a few minutes.
- OK Hema I think I have done a mess with dpam.
- I am trying to figure out what I have done.
- but I am not sure I did well ...
- I just need to figure out ...
- I have checked for Monthly Perf and EU PRIIPS - those are good
- meaning that the changes have been done on the correct theme
- I think I fucked up Pas Performance though

- meaning that the changes I have requested have been done on the theme I pointed `pastperf_dpas_dpam_logo` instead of `pastperf_dpas_dpam_logo_v2`
- would it be possible to have changes reverted on `pastperf_dpas_dpam_logo` .
- Yes it's possible.
- Changes reverted to previous version.
- I would need the start version. meaning that a lot of changes have been performed since
- let's call - I know it is quite a mix of information.
- hey Hema thanks for that - let me see, the `pastperf_dpas_dpam_logo_v2` needs to look like this with this logo - this one is for the moment available in UAT as this is the rebranding for the client
- yes as soon as I finish this client call, will do.
- let's call, yes?
- Hi Hema, thankyou! I am well. I hope you are doing well also. I have added another comment in the DevOps ticket. some of the headers are still not aligned
- I understand that the 2nd point is not possible with CSS, so I will contact the dev regarding this about the script.
- So because it is varied based on the Top Contributors, does this mean we can't have it aligned to Monthly Excess Returns?
- Yes , current html structure looking like this. Left side content is not relative to right side. Both content height changed based on content size only. thankyou for looking into this.
- I suggest you to change html structure common row `column1`(Top Contributors), `column2` (Asset Allocation) and another row `column1`(Asset Class Contributors), `column2` (Monthly Excess Returns).
- I'm not sure it is possible for me to change the HTML via the UI.
- PC only changing html structure
- would this have problems?
- This is not working.
- actually i will try this first
- so i will put both sections in a composite section
- let me try this first and we shall see! thank you for the suggestion
- does this work?
- Yes now html struture okay
- Give me 5mins i will fix it
- amazing! Thank you
- looks great! thank you

- all coming through as expected.
- Hi Carson Liang, Trust you're well
- In the absence of Shyamalata, So i pick this ticket - 334512: IOOF | Creation of New Theme from Existing Theme.
- I've one doubt in below point. Could you also align the Notes to the trust profile to the centre so that there is a gap between the orange text and the disclaimer at the bottom?
- You mean Title (Notes to the trust profile) need to align center? Like this
- Hi Hemapreetha, I'm doing well and hope that's the same for you
- Thanks for picking this up!
- Sorry I should have clarified a little further
- The Title "Notes to the trust profile" can be kept as it is, to the left side just above Point 1
- What I meant by this was to push the entire "Notes to the trust Profile" section down a little to cover the space in between
- Let me illustrate this out
- Sorry it's not the best drawing! But if the whole section could be shifted a little down, that was all that was needed for this one
- Hopefully I didn't confuse you too much! Yes thats perfect!! Thank you
- Yeah i understand, Thank you so much for explaining
- No problem! Thanks for actioning and apologies for any confusion
- It looks good! Thank you so much
- We are meeting with the client this week for any feedback, so feel free to assign the ticket to me and I'll provide any updates via the ticket
- Can you please attach latest pdf for my reference?
- Doing well! Happy Friday. Would the attached PDF work for you or do you need a HTML link?
- Can you please attach in ticket?
- I've attached it to the ticket. Let me know if you need anything else!
- Thanks for the feedback regarding this one. The client stated that if it was not possible, it would be fine to leave it as it is
- Thank you! Let me check this out
- Oh sorry, 1 smaller thing I've noticed
- With the banner being extended, would it be possible to move the text down a little?
- Sure will change it & let you know
- Thank you! Other than that, the changes are spot on

- Sorry to add another one on which I just noticed. There seems to be a bigger gap between the Investment Objective and the first Table. Also the gap between the tables seems to be really close. Would it be possible to reduce the gap for the first one and increase the gap a little for the second?
- Yup both look good! Thank you
- Just checked and it looks perfect! Thank you
- I will draft a sample to the client for further review and will update via the ticket
- Hi Hemapreetha, apologies I just have 1 more request for the template after making a change on my end. I've updated this on the ticket
- Ah right, no problem. Let me reattach the pdf in the ticket
- Apologies for that
- I've reattached the PDF to the ticket. I've named it "Final Final MLC Draft"
- Yep they both look good! Thank you
- Hi Hemapreetha, I'm doing well and hope that's the same for yourself!
- Thanks for looking into it. It looks perfect on my end! Thank you
- I've just checked and it looks good! Thank you I'll push this to the live environment as well. I'll also look to close off the ticket item too.
- Hi Hemapreetha, Hope you're doing well! Off the back of yesterday, I found 2 citicodes under the Insignia MLC Template that has the ActualVsTarget graph overlap with the left breakdown.
- Since this is a continuation from what I raised yesterday, I'll reopen the work item on Devops and provide the links for these 2 erroneous factsheets and an example of what it should look like.
- Sorry for going around circles for this one.
- We believe it has to do with the dependency on the length of the Manager Weightings section
- Hi sorry I was just away from my computer, do you still require a call?
- if we show it on the next page, is there a big blank spot on the previous page?
- probably prefer this one if that is okay. the alignment is okay
- Sorry didn't get back to you in time. Staging environment only is fine which I can see you've done. Thank you!
- So do we still need to get the font files for this?
- No need Andrew, I converted same file to ttf , Issue fixed in MUFGESG theme
- Amazing thank you, will review and get back to you ASAP

- For testing purpose Dev changed this for me to check, Now he is not available. I don't have access for this. Can you please change this to PDF?
- We actually need this on for the PDF conformance so I will leave it on and test my end
- Can you please share screenshot for this point?
- Will do, let me get that to you shortly
- Have updated the screenshot for the first point
- Yes this looks correct to me.
- we need some input, please let me know your available time.
- how have you resolved this kind of issue?
- please can you look at the latest Phoenix ticket - it has been escalated so would be good if it can be done ASAP
- Thanks, please let me know if you require anything
- There is no RLAM text on the fund center page. Could you please share a screenshot of it? Can we have a call to discuss this?
- No RLAM text found on fund center page. Can you share a screenshot? Can we discuss this over a call?
- RLAM text is missing on fund center page. Please send a screenshot. Can we talk about this on a call?
- "The fund center page doesn't have RLAM text. Could you send a screenshot? Let's discuss this over a call."
- "No RLAM text is present on the fund center page. Can you provide a screenshot? We may need a call to address this."
- "There's no RLAM text in the fund center. Please send a screenshot. A call might be helpful to discuss this."
- "The fund center page lacks RLAM text. Could you share a screenshot? Let's schedule a call to talk about this."
- "RLAM text is missing on the fund center page. Can you send a screenshot? We should have a call to address this issue."
- "There is a absence of RLAM text on the fund center page. Please send a screenshot. Let's arrange a call to discuss this further."
- "No RLAM text can be found on the fund center page. Can you please provide a screenshot? It would be beneficial to have a call regarding this."
- "The RLAM text is not visible on the fund center page. Could you forward a screenshot? A call would be great to resolve this."

- "The fund center page is lacking RLAM text. Can you share a screenshot? Let's plan a call to go over this matter."
