Date of Production 01/11/2022

What is this product?

The Fund is a sub fund of Brooks Macdonald International Multi Strategy Fund Limited, a non UCITS open ended investment company. There is no fixed term or maturity date. It is classified as a fund of funds which is a fund that invests in a number of other funds. Fund launch date: 07/07/2021. Objective and Policy The objective is to seek to provide a greater potential for long-term growth achieved through investment in a range of funds which invest in various asset classes, weighted towards equities. The policy is to invest in collective investment funds and multimanager funds managed by a range of fund managers including, but not limited to, Brooks Macdonald International Fund Managers Limited and other subsidiaries of Brooks Macdonald Group plc ("Brooks Macdonald Group" or "Group"). These funds, in turn, invest in a number of asset classes. These could include, but are not limited to equities, properties and cash. This Fund may be suitable for you if you are willing to risk a loss to your capital and are looking for a medium to long term investment. The Fund can be terminated without the agreement of shareholders, if the value of the Fund is less than £5,000,000 or currency equivalent for a period of four consecutive weeks. Shareholders will be given at least three weeks' written notice of any such action.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk and volatility of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or the type of underlying assets in which the Fund invests.

The risk indicator assumes you keep the product for a minimum of five years. The actual risk can vary significantly if you sell your shares at an early stage and you may get back less.

The base currency of the Fund is sterling. It can invest in securities denominated in currencies other than sterling so can be affected by currency fluctuations which may affect the return. The return from investing in a fund denominated in a currency other than the currency of your residence or domicile may be affected by currency fluctuations. Dividends, which will be automatically reinvested in shares of the Fund, are not guaranteed and the amount you receive may fluctuate. The value of investments and the income from them can go down as well as up and cannot be guaranteed. This product does not include any protection from future market performance so you could lose some or all of your investment. Past performance is not an indicator of future performance. Additional risk information is included in the Risk Warnings section of the prospectus.

Investment performance information

The Manager has given discretion to the Investment Manager to decide on the type of assets held by each Fund and this may change without notice to shareholders. The exact allocation of the assets of each Fund between the various asset classes will be decided by the Investment Manager and will vary depending on the risk profile of each Fund. The Funds are managed according to their risk profile and each Fund carries a risk of loss to capital value and/or return particularly in the short to medium term but with potential for growth over the medium to long term. The level of risk for the High Growth Strategy is medium to high. Typically, higher growth potential is associated with higher risk, although this cannot be guaranteed. A suitable benchmark or proxy has been chosen in order to provide a comparator for information purposes. The relative performance will differ for a number of reasons and is not a reflection of how the Fund will perform. Past performance is not a reliable indicator of future results. Under severe market conditions the value of the investment may be adversely impacted, and you may not get back the amount of your initial investment. This investment is a medium/long term investment and should be held for the recommended holding period.

What could affect my return positively?

The aim of the High Growth Strategy is to achieve greater return, the factors that influence your rate of return positively include, exposure to a broader range of assets, such as stocks, bonds, real estate or cash, low interest rates, favourable currency fluctuation, government policy or the health of the underlying economy.

What could affect my return negatively?

The aim of the High Growth Strategy is to achieve a greater return, the factors that influence your rate of return negatively include, exposure to a broader range of assets, such as stocks, bonds, real estate or cash, rising interest rates, unfavourable currency fluctuation, government policy or the health of the underlying economy. Investing for less than the recommended period may also impact your return.

What happens if Lloyds International is unable to pay out?

In the event of the default of the manager or custodian of the Fund, limited protection is provided under the Collective Investment Funds (Recognized Funds) (Compensation for Investors) (Jersey) Regulations, 1988. The maximum compensation payable to any one investor is £48,000 and is dependent upon the size of the investment. The total amount of compensation in any one year is limited to £5,000,000. Please refer to the prospectus for further information.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest GBP1,000 each year. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment GBP1,000 each year			
Scenarios	If you cash in after 1 year	If you cash in after 10 years	If you cash in at 20 years
Total costs		GBP10	GBP10
Impact on return (RIY) per year		10.12%	10.12%

What are the costs? (continued)

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and, what the different cost categories mean.

This table shows the impact on return per year

One-off costs	Entry costs	10.12%	The impact of the costs you pay when entering your investment.
	Exit costs	10.12%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	10.12%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	10.12%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	10.12%	There are no performance fees payable for this product.
	Carried interests	10.12%	

How long should I hold it and can I take money out early?

Investment in this Fund should be for a minimum of five years, preferably ten years, however you can normally buy or sell your shares in this Fund on any business day in Jersey by providing an instruction to the Administrator, PO Box 12984, DUNMOW, CM6 9DQ. Further information is available in the prospectus. Cooling off periods and cancellation rights (which provide a time period in which an investor can change their mind) do NOT apply to an investment in this Fund.

How can I complain?

Complaints should be addressed to the Manager, 5 Anley Street, St. Helier, Jersey, JE2 3QE or email jersey@brooksmacdonald.com, who will investigate all complaints. If you are not satisfied with the Manager's response, you have the right to refer the complaint to the Channel Islands Financial Ombudsman, PO Box 114, Jersey, Channel Islands JE4 9QG. www.ci-fo.org
