What is this product?

Type

Shares in Macquarie Emerging Markets Debt Select Opportunities Fund, being a compartment of Macquarie Fund Solutions, a Luxembourg incorporated investment company with variable capital qualifying as Undertaking for Collective Investment in Transferable Securities (UCITS).

Term

The share is issued in registered form. It does not have a fixed maturity date. The Fund is established for an unlimited duration though it may also be dissolved by compulsory redemption upon a decision of the Directors (i) if its Net Asset Value has decreased below the minimum holding deemed appropriate for its existence in the interest of the Shareholders, or (ii) if a change in its economical or political situation would have material adverse consequences for its investments, or (iii) in order to proceed to an economic rationalization.

Objectives

Objective: To provide investors with an excess return over cash through the cycle.

Portfolio Securities: Under normal conditions, Macquarie Emerging Markets Debt Select Opportunities Fund (the "Sub-Fund") primarily invests in emerging markets bonds and their derivatives, such as currency forward and options and Futures. The Sub-Fund may invest up to 10% of its assets in Chinese bonds through the China Bond Connect. The Sub-Fund may invest up to 10% of its net assets in contingent convertible bonds. The Sub-Fund may not invest more than 25% of its net assets in a single emerging country. On an ancillary basis the Sub-Fund may hold cash and cash equivalents and if justified by exceptional market conditions, up to 100% of its net assets. The Sub-Fund may use financial instruments to manage its exposure to various investment risks (hedging) and to seek investment gains.

Investment Process: The Investment Manager is actively managing the Sub-Fund and has all discretion with respect to the composition of the portfolio. The Investment Manager will seek to invest in a diversified portfolio of emerging markets debt using a flexible approach that adapts to the prevailing market environment. The Sub-Fund promotes environmental and/or social characteristics, as further described in the Prospectus.

Benchmark: ICE BofAML 0-3 Month Treasury Bill Index. The benchmark is a performance reference and the Sub-Fund's underlying portfolio may differ significantly to the benchmark composition.

Any income earned is declared monthly. You may elect to either receive such income in cash or reinvested in the Sub-Fund.

Intended retail investor

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within 3 years. This product is for professional investors with basic investment knowledge, seeking an excess return over cash through the business cycle through an actively managed fund invested in emerging markets bonds. Investors should be looking to invest for at least three years and should appreciate that their capital will be at risk and that the value of their investment and any derived income may fall as well as rise. Particular performance risks include potential adverse political, economic or social developments and falling exchange rates in emerging markets currencies.

Depository: RBC Investor Services Bank S.A.

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a

medium-low level, and poor market conditions are unlikely to impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other material risks relevant to the Sub-fund not included in the summary risk indicator are set out in the Prospectus available in section "Risk Considerations".

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		€10000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	€3450	€4000
	Average return each year	-65.50%	-16.73%
Unfavourable	What you might get back after costs	€7670	€7430
	Average return each year	-23.30%	-5.77%
Moderate	What you might get back after costs	€9780	€8510
	Average return each year	-2.20%	-3.18%
Favourable	What you might get back after costs	€12390	€11500
	Average return each year	23.90%	2.83%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment [add reference to benchmark where applicable] between [add dates in years].

Moderate scenario: This type of scenario occurred for an investment [add reference to benchmark where applicable] between [add dates in years].

Favourable scenario: This type of scenario occurred for an investment [add reference to benchmark where applicable] between [add dates in years].

This product cannot be easily cashed in.

What happens if Macquarie Fund Solutions is unable to pay out?

The investor of this Product will not face financial loss due to the default of Macquarie, Lemanik, as the Subfund is considered to be a separate entity with segregated assets.

Macquarie Fund Solutions is not part of any investment compensation or guarantee scheme.

What are the costs?

The party advising on or selling you this product may charge you other costs. If so, this party will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€118	€532
Annual cost impact (*)	1.1%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be {RETURN_BEFORE_COST}% before costs and {RETURN}% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	Up to 0 EUR
Exit costs	We do not charge an exit fee for this product, but the party selling you the product may do so.	0 EUR

Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

A shorter holding period can cause a loss due to short-term variations in the value of securities and exchange rates.

You can place orders to buy or sell Sub-Fund shares at any time. Orders received on any given Luxembourg business day before 6 p.m. Luxembourg time will be processed at that day's share price.

When selling early, you will not incur any fees or penalties that are related to disinvestments within the recommended holding period. Please refer to the exit costs described in the section "What are the costs?".

How can I complain?

Each Shareholder who is not satisfied with its experience as an investor in the SICAV should contact the Management Company in accordance with the applicable complaints handling policy which is available at <https://www.lemanikgroup.com/corporate-governance/>.

Each Shareholder may also have the right to complain to the Consumer Protection department of the Luxembourg regulator Commission de Surveillance du Secteur Financier (CSSF) which is available at <https://reclamations.apps.cssf.lu/index.html?language=en>.

Investors can also contact Macquarie Investment Management Europe S.A., 10A Boulevard Joseph II, L-1840 Luxembourg to make a complaint.
