Test

What is this product?

What are the risks and what could I get in return?

Risk Indicator

What are the risks and what could I get in return? (continued)

The scenarios presented are an estimate of future performance based on evidence from the past. And are not an exact indicator. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The stress scenario shows what you might get back in extreme market circumstances.

Note that the figures shown also reflect the maximum redemption fee of {redemptionfee}. This fee may be applicable at the discretion of the Directors from time to time, in the event that the Fund would need to make asset sales in the secondary market at a spread to meet redemption requests.

The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

Recommended holding period:		5 years	
Example Investment:		\$1230 per year	
		If you exit after 1 year	If you exit after 5 years
Survival Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	\$40	\$50
	Average return each year	54.58%	54.89%
Unfavourable	What you might get back after costs	\$30	\$50
	Average return each year	54.00%	54.00%
Moderate	What you might get back after costs	\$50	\$40
	Average return each year	55.00%	57.00%
Favourable	What you might get back after costs	\$80	\$70
	Average return each year	43.00%	66.00%
Amount invested over time		\$60	\$70
Death Scenario			
Insured event	What your beneficiaries might get back after costs	\$70	\$60
Insurance premium taken over time		\$70	\$70

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

What happens if #^ManufacturerName^# is unable to pay out?

As the shares are not traded directly with the Trust or Baillie Gifford & Co Limited but are traded on the London Stock Exchange, any default by Baillie Gifford & Co Limited will not materially affect the value of your shares. However, a default by the Trust or any of the underlying holdings could affect the value of your investment. As the shares are listed on the London Stock Exchange, any direct holding of these shares is not covered by any investor compensation schemes in relation to either Baillie Gifford & Co Limited or the Trust.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be {AverageReturnBeforeCosts} % before costs and {AverageReturnAfterCosts} % after costs.

	If you exit after 1 year	If you exit after 5 years
Total costs	\$7	\$55
Annual cost impact (*)	24.1%	27.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 56.0 % before costs and 57.0 % after costs.
The person selling or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

This table shows the impact on return per year.

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and, what the different cost categories mean.

What are the costs? (continued)

One-off costs upon entry or exit		Annual cost impact if you exit after 5 years
Entry costs	The impact of the costs you pay when entering your investment. [This is the most you will pay, and you could pay less].	Up to 66.0%
Exit costs	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark [y by %].	65.0%
Ongoing costs taken each year		
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investments.	68.0%
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	55.0%
Incidental costs taken under specific conditions		
Performance fees		76.0%

This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other PRIIPs.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

How can I complain?

If you have a complaint about the product or the person advising on or selling the product you will need to provide the details to the person who advised you or sold you the product. As a shareholder of Scottish Mortgage Investment Trust PLC you do not have the right to complain to the Financial Ombudsman Service (FOS) about the management of Scottish Mortgage Investment Trust PLC. Complaints about the Company or the Key Information Document should be sent to our Client Relations Manager at Baillie Gifford & Co Limited, Calton Square, 1 Greenside Row, Edinburgh EH1 3AN, by emailing trusenquiries@bailliegifford.com or by calling 0800 917 2112. You can also visit www.bailliegifford.com for more information.
