Date of Production 27/10/2022

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

The information contained in this document and the methodologies for calculating risks, costs and potential returns are prescribed by law.

The Product is an ordinary share in a closed-ended investment trust, a company whose shares are listed on the London Stock Exchange.

The Trust is an actively managed, low cost investment trust that invests in a reasonably well diversified portfolio of assets. It aims to maximise total return over the long-term from investment primarily in shares of companies from across the globe. The Managers look for strong, well run businesses which offer the best potential durable growth opportunities for the future and aim to achieve a greater return than the FTSE All-World Index (in sterling terms) over a 5 year rolling period, although the Trust's portfolio is constructed without any reference to the index and will not replicate it. The majority of the portfolio will be held in quoted equities and up to a maximum of 30% of the assets may be invested in companies not listed on a public market (measured at the time of purchase). It can borrow money to invest with the intention of increasing returns (sometimes known as gearing) but in a falling market losses may thus be magnified.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for a minimum of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

REALOBJECTS PDFReactor®

Evaluation Version

This PDF document was created by an evaluation version of RealObjects PDFReactor 11.4.8 (14222). The evaluation version is fully functional, but includes this information page. It must not be used for production purposes. The information page and all other evaluation notices must not be removed from the PDF file.

NOTE: Conversions in evaluation mode might be slower and the results might have a larger file size than in production mode.

About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.

For more information visit www.pdfreactor.com

This product does not include any protection from future market performance so you could lose some or all of your investment. In accordance with legislation, we have classified this product as 4, which is a medium risk class. Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases.

The summary risk indicator only reflects historical share price volatility of the Company's shares.

Gearing, exposure to emerging markets, unlisted investments, foreign currencies, derivatives and the ability of the Trust to buy back its own shares may increase risk. This product does not include any protection from future market performance so you could lose some or all of your investment.

Investment performance information

A description of the main factors likely to affect future returns for the investor, identifying those most likely to determine the outcome of the investment and other factors which could have a material impact on performance. Identification of the most relevant index, benchmark, target, or proxy, as applicable, along with an explanation of how the PRIIP is likely to compare in terms of performance and volatility. A brief description of what outcome the investor may expect where the PRIIP matures or is redeemed or encashed under severely adverse market conditions.

What could affect my return positively?

A brief explanation of the kinds of conditions that would be conducive to the PRIIP generating higher returns.

What could affect my return negatively?

A brief explanation of the kinds of conditions whereby the PRIIP is likely to generate lower returns or lead to investment loss.

What happens if Octopus is unable to pay out?

As the shares are not traded directly with the Trust or Example Asset Manager Mortgage Investment Trust PLC but are traded on the London Stock Exchange, any default by Example Asset Manager Mortgage Investment Trust PLC will not materially affect the value of your shares.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP1,000 each year. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment GBP1,000 each year

Scenarios	If you cash in after 1 year	If you cash in after 10 years	If you cash in at 20 years
Total costs	GBP10	GBP10	GBP10
Impact on return (RIY) per year	10.12%	10.12%	10.12%

What are the costs? (continued)

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

This table shows the impact on return per year

One-off costs	Entry costs	10.12%	The impact of the costs you pay when entering your investment. Example Asset Manager Mortgage Investment Trust PLC does not make any charges when you purchase or sell your investment. Stamp Duty Reserve Tax (SDRT) of 0.5% is payable if the shares are purchased on the secondary market.
	Exit costs	10.12%	The impact of the costs of exiting your investment. Example Asset Manager Mortgage Investment Trust PLC does not make any charges when you sell your investment.
Ongoing costs	Portfolio transaction costs	10.12%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	10.12%	The impact of the management fee payable to the Trust's investment manager (0.30%), the Trust's other administrative expenses (0.06%), the costs of borrowing money to invest, including interest and arrangement fees (0.39%) but not any income or capital benefit of doing so and the ongoing costs of any underlying investments in funds within the Trust's portfolio (0.01%).
Incidental costs	Performance fees	10.12%	Example Performance Fees Description from the Workbook.
	Carried interests	10.12%	The impact of carried interests on your investment.

How long should I hold it and can I take money out early?

Recommended holding period: 20

The recommended holding period of 5 years has been selected for illustrative purposes only. Equity investments should be seen as long-term investments however there is no minimum (or maximum) holding period for the shares. The shares can be sold when the markets on which they trade are open, in this instance the London Stock Exchange. At any time the value of your investment is based on the market value of the shares (the share price) multiplied by the number of shares you own.

How can I complain?

Should you have any complaints regarding our products or services, you can notify us at the following address: For the attention of the Complaints Officer, Example Asset Manager Mortgage Investment Trust PLC, Cattal Square, 1 Blueside Row, Edinburgh EH62 7AN.
