Overview

The IFSL Marlborough Multi Cap Income Fund is a UK equity income fund that takes a different approach.

Instead of focusing on the same limited number of FTSE 100 giants that dominate so many equity income portfolios, manager Siddarth Chand Lal identifies the strongest opportunities across the market cap spectrum.

While he does hold FTSE 100 stocks, he has a bias to faster-growing small and mid-cap dividend-paying companies in the FTSE 250, AIM, FTSE SmallCap and FTSE Fledgling indices. This increases the number of opportunities from around 90 stocks to approximately 700.
