The Swiss Financial Market Supervisory Authority (FINMA) is responsible for supervising UBS Fund Management (Switzerland) AG, Basel in relation to this key investor information.

This key information sheet for packaged retail and insurance-based investment products (PRIIPs) is approved in Switzerland. UBS Fund Management (Switzerland) AG is authorized in Switzerland and regulated by the Swiss Financial Market Supervisory Authority FINMA.

This key investor information is accurate as at 15 May 2023.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

BKB Anlagelösung is a contractually-based umbrella fund under Swiss law of the "Other funds for traditional investments" category of the Swiss Federal Act on Collective Investment Schemes of 23 June 2006. The fund contract was drawn up by UBS Fund Management (Switzerland) AG as fund management and submitted to the Swiss Financial Market Supervisory Authority FINMA with the consent of the custodian bank UBS Switzerland AG, and approved by FINMA for the first time on 18 June 2015.

Duration

This product does not have a maturity date (in other words, it is open-ended). The manufacturer may terminate the product early. The amount you would receive if such early termination took place might be lower than the amount you invested.

Targets

The aim of this investment fund is to generate a regular income through interest and dividend income, supplemented by possible capital gains, in order to ensure the real preservation of the assets in the long term. The fund management company invests the fund assets primarily in units of other collective investment schemes. The assets are primarily invested in investments denominated in Swiss francs. At least 15% and no more than 47% of the investment is made in collective investment schemes that invest their assets primarily in equity securities and rights of companies. At least 53% and no more than 85% of the investment is made in collective investment schemes that invest their assets mainly in bonds and other debt securities and rights of private and public borrowers worldwide. No more than 15% of the investment is made in alternative investments. No benchmark index is used. The fund manager invests at his own discretion but within the specified investment restrictions.

The fund's return depends primarily on the development of the capital markets. The following factors play a role to varying degrees: Development of the stock markets and dividend payments, interest rates, creditworthiness of the issuers of the invested instruments and interest income. Returns may also be affected by exchange rate fluctuations where there are active or unhedged positions

Income of this share class is reinvested.

Small investor target group

This fund applies to retail investors with a basic financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at generating a substantial part of its yield through recurring income, while granting daily access to the capital under normal market conditions. With their investment in this fund, investors can satisfy short term investment needs. The fund is suited to be acquired subject to a test of the investor's financial knowledge and experience.

Custodian bank

UBS Switzerland AG

Additional information

Information on Einkommen (CHF) and the available unit classes as well as the full prospectus and the current annual or semi-annual reports and other information can be obtained free of charge from the fund management company, the central administration agent, the depositary, the custodian bank, the fund distributors or online at www.bkb.ch. The current price is available at www.bkb.ch

REALOBJECTS PDFReactor®

Evaluation Version

This PDF document was created by an evaluation version of RealObjects PDFReactor 11.6.5 (14980). The evaluation version is fully functional, but includes this information page. It must not be used for production purposes. The information page and all other evaluation notices must not be removed from the PDF file.

NOTE: Conversions in evaluation mode might be slower and the results might have a larger file size than in production mode.

About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.

What are the risks and what could I get in return?

Risk indicator

This risk indicator is based on the assumption that you hold the product for 3 year(s).

Der Summary Risk Indicator (SRI) gibt Auskunft über den Risikograd dieses Produkts im Vergleich zu anderen Produkten. Sie wird aus vergangenen Renditen abgeleitet und kann die Wahrscheinlichkeit anzeigen, dass das Produkt aufgrund zukünftiger (unbekannter) Marktbedingungen einen Verlust erwirtschaftet.

Der summarische Risikoindikator (SRI) für dieses Produkt beträgt 2 von 7, was einer niedrigen Risikoklasse entspricht.

Damit werden die potenziellen Verluste aus der künftigen Wertentwicklung im unteren Bereich eingestuft. Die Vergangenheit ist kein verlässlicher Anhaltspunkt für die Zukunft, sodass das tatsächliche Verlustrisiko erheblich variieren kann.

Bitte beachten Sie, dass ein mögliches Währungsrisiko besteht, wenn Ihre Referenzwährung nicht mit der Währung des Produkts übereinstimmt. Sie erhalten Zahlungen in einer anderen Währung, was bedeutet, dass Ihre endgültige Rendite vom Wechselkurs zwischen diesen beiden Währungen abhängt. Der obige Indikator erfasst dieses Risiko nicht.

Das Produkt kann weiteren Risikofaktoren unterliegen, die nicht im Summary Risk Indicator (SRI) enthalten sind, wie beispielsweise operationellen, politischen und rechtlichen Risiken. Weitere Einzelheiten finden Sie im Prospekt.

Dieses Produkt beinhaltet keinen Schutz vor zukünftigen Marktentwicklungen, sodass Sie das investierte Kapital ganz oder teilweise verlieren können.

Wenn wir Ihnen nicht das auszahlen können, was Ihnen zusteht, können Sie Ihr gesamtes investiertes Kapital verlieren.

Möglicherweise profitieren Sie jedoch von einer Reihe von Verbraucherschutzbestimmungen (siehe Abschnitt „Was passiert, wenn wir eine Zahlung nicht leisten können?“). Dieser Schutz ist im oben genannten Indikator nicht berücksichtigt.

Leistungsszenarien

Was Sie von diesem Produkt zurückbekommen, hängt von der zukünftigen Marktentwicklung ab. Zukünftige Marktentwicklungen sind ungewiss und nicht genau vorhersehbar.

Die dargestellten ungünstigen, mittleren und günstigen Szenarien sind lediglich Beispiele, die die schlechteste, durchschnittliche und beste Leistung des Produkts in den letzten 10 Jahren zeigen. Die Märkte könnten sich in Zukunft ganz anders entwickeln.

Empfohlene Haltedauer:		3 Jahre	
Beispielinvestition:		10.000 CHF	
		Wenn Sie nach 1 Jahr austreten	Wenn Sie nach 3 Jahren aussteigen
Szenarien			
Minimum	Es gibt keine garantierte Mindestrendite. Sie könnten Ihre Investition ganz oder teilweise verlieren.		
Betonen	Was Sie nach Abzug der Kosten möglicherweise zurückbekommen	7.060 CHF	7.520 CHF
	Durchschnittliche Rendite pro Jahr	-29,4 %	-9,0 %
Ungünstig	Was Sie nach Abzug der Kosten möglicherweise zurückbekommen	8.350 CHF	8.710 CHF
	Durchschnittliche Rendite pro Jahr	-16,5 %	-4,5 %
Mäßig	Was Sie nach Abzug der Kosten möglicherweise zurückbekommen	9.880 CHF	10.420 CHF
	Durchschnittliche Rendite pro Jahr	-1,2 %	1,4 %
Günstig	Was Sie nach Abzug der Kosten möglicherweise zurückbekommen	10.490 CHF	11.320 CHF
	Durchschnittliche Rendite pro Jahr	4,9 %	4,2 %

Das Stressszenario zeigt, was Sie unter extremen Marktbedingungen zurückbekommen könnten.

Die angegebenen Zahlen beinhalten alle Kosten für das Produkt selbst. Die dargestellten Zahlen berücksichtigen nicht Ihre persönliche Steuersituation. Dies kann auch Einfluss auf den Betrag haben, den Sie zurückerhalten.

Solche Szenarien traten bei einer Investition zwischen dem 01.11.2012 und dem 01.10.2022 auf.

Was passiert, wenn die UBS Fund Management (Switzerland) AG nicht auszahlen kann?

Verluste werden von keinem Anlegerentschädigungs- oder Garantiesystem gedeckt. Darüber hinaus besteht im Verhältnis zur UBS Switzerland AG, die als Depotbank des Fonds für die Verwahrung ihrer Vermögenswerte verantwortlich ist (die „Depotbank“), ein potenzielles Ausfallrisiko für den Fall, dass die bei der Depotbank verwahrten Vermögenswerte des Fonds verloren gehen. Dieses Ausfallrisiko ist jedoch begrenzt, da die Depotbank gesetzlich und aufsichtsrechtlich dazu verpflichtet ist, ihre eigenen Vermögenswerte von den Vermögenswerten des Fonds zu trennen. Die Depotbank haftet gegenüber dem Fonds bzw. dem Fonds.

What are the costs?

The person who provides advice on or sells you this product may charge you additional costs. In this case, this person will inform you of these costs and how they impact your investment.

Costs over time

The tables show the amounts that will be deducted from your investment to cover various types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The examples given here are based on different investment amounts and different investment periods.

We make the following assumptions:

- in the first year, you will get back the amount you invested (0% annual return). For the other holding periods, we have assumed that the product will perform according to the moderate scenario.
- 10,000.00 CHF is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	517 CHF	771 CHF
Annual cost impact (*)	5.2%	2.6% each year

(*) This illustrates how costs reduce your return each year during the holding period. For example, if you terminate your investment after the recommended holding period, your average return per year is estimated to be 4,0% before costs and 4,0% after costs.

Summary of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2,00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to 200 CHF
Exit costs	2,00% of your investment before it is paid out to you.	194 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,3% of the value of your investment per year. This is an estimate that is based on last year's actual costs. For products launched less than one year ago, this is an estimate based on the representation costs.	126 CHF
Transaction costs	0,0% of the value of the investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	1 CHF
Incidental costs taken under specific conditions		
Performance fees	No performance-related fee is charged for this product.	0 CHF

Additional information on costs can be found in the sales prospectus at www.bkb.ch

How long should I hold it and can I take money out early?

Recommended holding period: 3 Year(s)

The recommended holding period for this product is 3 year(s). This is the holding period we recommend based on the risk and the expected return on the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period of the product, the more your actual risk return will deviate from the product assumptions. Depending on your needs and restrictions, a different holding period may be suitable for you. We therefore recommend that you discuss this point with your client advisor.

Investors may ask to redeem their units from the fund management company on trading days.

How can I complain?

If you have a complaint about the product, the producer of the product or the person who recommended or sold you the product, please contact your customer service representative or contact us at sh-am-complaint-switzerland@ubs.com.
