UBS Fund Management (Luxembourg) S.A. is authorised in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF).

This key investor information is accurate as at 23 June 2023.

What is this product?

Type

The Company is a Luxembourg public limited company (Société Anonyme) incorporated on 19th June 2014. The Company is a UCI in the form of an investment company with variable capital and qualifies as a Specialised Investment Fund under the SIF Law; as such, the Company is a Société d'Investissement à Capital Variable – Fonds d'Investissement Spécialisé or SICAV-SIF.

Term

The Product does not have a maturity date (the Product has been established for an indefinite period of time). The Manufacturer may terminate the Product early. The amount you will receive upon early termination may be less than the amount you invested.

Objectives

The Sub-Fund seeks to achieve its investment objective by investing directly or indirectly in various investment funds and fund-like investment instruments which themselves pursue alternative or traditional long-only investment strategies. While the objective of the Sub-Fund is to pursue an absolute return approach, it seeks to do so by gaining exposure, directly or indirectly, to either closed-end or open-end UCI (based in different jurisdictions) pursuing hedge fund strategies or long-only strategies or by investing directly or indirectly in exchange-traded-funds (ETF), futures, options, forwards, swaps or credit default swaps (CDS) in order to generate long or short market exposure. The Sub-Fund has the possibility of using the complete global range of alternative asset management strategies. Targeted alternative investments will typically include the following strategies: Macro, Relative Value, Event Driven, Credit Long-Short, Equity Long-Short and Multi-Strategy (as defined hereafter). To a lesser extent, the Sub-Fund will use other instruments to help achieving the investment objective, such as UCI pursuing long only strategies or direct investment securities including derivative financial instruments. The Sub-Fund's portfolio invests in all available and tradable asset classes with a focus on securities in fixed income, equity, FX and commodities. The Sub-Fund has a focus on developed markets, although there is no specific investment restriction to that effect. Sustainability risks are not systematically integrated on the basis of the investment strategy and the type of underlying investments.

The return of the fund depends primarily on the development of capital markets. To varying degrees, it will be a function of the following components: equity market development and dividend payments, development of interest rates, creditworthiness of the entities issuing the invested instruments and interest income. The return may also be affected by currency fluctuations, where active or unhedged positions exist. Income of this share class is reinvested.

Intended retail investor

This fund applies to professionally managed discretionary mandates for retail investors with an expert financial understanding, who can accept a possible loss on the investment amount. The fund is aimed at growing the investment value, while requiring acceptance of certain restrictions to accessing the capital. With their investment in this fund, investors can satisfy medium term investment needs. The fund can be acquired by professional investors and through selected distribution channels only.

Depository

UBS Europe SE, Luxembourg Branch

What are the risks and what could I get in return?

Risk indicator

This risk indicator is based on the assumption that you hold the product for 4 year(s).

The Summary Risk Indicator (SRI) is a guide to the level of risk of this product compared to other products. It is derived from past returns and may indicate how likely it is that the product will lose money as a result of future (unknown) market conditions.

The Summary Risk indicator (SRI) for this product is 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. The past may be a poor predictor of the future and, hence, the actual risk of losing money may vary significantly.

Be aware of currency risk when your reference currency differs from the currency of the product. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This type of risk is not considered in the indicator shown above.

The product may be exposed to further risk factors such as operational, political and legal risks which are not included in the summary indicator. Please refer to the prospectus for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

However, you may benefit from a consumer protection scheme (see the section 'what happens if we are unable to pay you'). The indicator shown above does not consider this protection.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are merely examples that show the product's worst, average and best performance in the last 10 years. The markets may develop quite differently in the future.

Recommended holding period:		4 years	
Example Investment:		USD 10000	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 4 year(s). You could lose some or all of your investment.		
Stress	What you might get back after costs	USD 6510	USD 6770
	Average return each year	-34.9%	-9.3%
Unfavourable	What you might get back after costs	USD 9210	USD 10060
	Average return each year	-7.9%	0.1%
Moderate	What you might get back after costs	USD 9750	USD 10750
	Average return each year	-3.0%	1.8%
Favourable	What you might get back after costs	USD 11370	USD 12150
	Average return each year	13.7%	5.0%

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all costs of the product itself. The figures shown do not take account of your personal tax situation, which can also have an impact on how much you receive back.

This type of scenarios occurred for an investment between 2012-11-01 and 2022-10-01.

What happens if UBS Fund Management (Luxembourg) S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to UBS Europe SE, Luxembourg Branch as depositary of the Fund, which is responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10 000,00 USD is invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	USD 694	USD 1003
Annual cost impact (*)	6.9%	2.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4,4% before costs and 1,8% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3,00% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to USD 300
Exit costs	3,00% of your investment before it is paid out to you.	USD 288
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0,8% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 78
Transaction costs	0,0% of the value of the investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 4
Incidental costs taken under specific conditions		
Performance fees	Performance fees may be paid, under certain conditions described in the prospectus.	USD 27

For additional information about costs, refer to the prospectus, which is available at www.fundinfo.com

How long should I hold it and can I take money out early?

Recommended holding period: 4 year(s)

The recommended holding period for this product is 4 year(s). This is our recommended holding period based on the risk and expected return with the product. Please note that the expected return is not guaranteed. The more the actual holding period deviates from the recommended holding period for the product, the more your actual return will also deviate from the product assumptions. Depending on your needs and limitations, a different holding period may be suitable for you. Consequently, we recommend that you discuss this issue with your customer service representative.

How can I complain?

If you have a complaint about the product, the manufacturer of the product or the person who recommended or sold the product to you, please speak to your client advisor or contact us at www.ubs.com/fml-policies
