The value of investments and any income from them can go down as well as up and you may not get back the amount originally invested.

Investors should note that actual portfolio returns may be different to the returns of the model portfolio. Figures represent performance of a model portfolio, individual account performance may differ.

Past performance is not a guide to future performance. Levels and bases for taxation may change.

PSW FOF

Investment objective

To achieve income in excess of the FTSE All Share Index with some capital growth by investing primarily in shares of UK companies.

About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.
