This factsheet is for informational purposes only and is not an investment offer. Potential investors should seek professional advice before making decisions. Information may change without notice and is sourced from reliable sources, but accuracy is not guaranteed. Zurich International Life Limited and its affiliates are not responsible for errors or omissions. Please consult a financial professional to determine suitability for your investments.

All funds carry certain risks, and it is important to consider these risks before making an investment decision. The value of investments and any income derived from them is not guaranteed; they can both fall and rise and may be eroded in real terms by the effects of inflation.

Key factors that may increase these risks include, but are not limited to:

- The proportion of assets held overseas,
- Any concentration in specific geographic areas or industry sectors,
- The amount invested in property or property-related shares,
- The use of derivatives and other financial instruments intended to generate outperformance,
- Additional charges that may reduce the number of units you hold.

Glossary for some of terms used in this factsheet is available in our [Fund Centre guide](#).

About PDFReactor

RealObjects PDFReactor is a powerful formatting processor for converting HTML and XML documents into PDF. It uses Cascading Style Sheets (CSS) to define page layout and styles. The server-side tool enables a great variety of applications in the fields of ERP, eCommerce and Electronic Publishing.

PDFReactor supports HTML5, CSS3 and JavaScript.

It allows you to dynamically generate PDF documents such as invoices, delivery notes and shipping documents on-the-fly. PDFReactor allows you to easily add server-based PDF generation functionality to your application or service. Since PDFReactor runs on a server, the end-user in general does not need any software other than a PDF viewer.
