Past performance is not a reliable indicator of future performance. The total return performance figures quoted are historical, calculated using end-of-month mid prices and do not allow for the effects of income tax or inflation. Total returns assume the reinvestment of all distributions. The performance is quoted net of all fees and expenses. The indices do not incur these costs. This information is provided for general comparative purposes. Positive returns, which the Chester High Conviction Fund (the Fund) is designed to provide, are different regarding risk and investment profile to index returns. A performance fee of 15.0% is payable quarterly on any excess performance (after deducting the management fee) above the benchmark, S&P/ASX Small Ordinaries Accumulation Index. A performance fee is only payable where the unit price is higher than when the last performance fee was paid.
